

REBELLS OF THE WEST

16TH ANNUAL
**SIMMENTAL
& ANGUS
BULL & FEMALE SALE**

SUNDAY, MARCH 15, 2020 - 2:00PM CDT
AT HEARTLAND AUCTION MART, VIRDEN, MB

WELCOME FROM FIRST CLASS CATTLE MARKETING

Welcome to the 16th Annual Rebels of the West Bull & Female Sale. Once again this year the consignors have brought you a tremendous set of bulls and females. The bulls on offer are the right kind. Stout, big middled, hairy and fed to last. On offer this year is a great selection of power bulls. Use these bulls on your cow herd to add pounds of gain on your calf crop in the fall and increase your return on investment. There is also a very good selection of calving ease bulls. Use these bulls in the heifer pen or on your 2 year old cows to ensure no calving problems on your younger females. This group of bulls are simply bred to calve. Low birthweight, smooth made bulls that will pass these traits on to their progeny. Also on offer once again is another tremendous set of commercial and purebred females. Take these heifers home and breed them to the bull of your choice. These heifers are sired by

breed leading bulls and excellent mother cows. New this year will be a select group of top quality Black Angus bulls from Horner Cattle Co.

Please plan on joining us March 15th in Virden for the 16th Annual Rebels of the West Bull and Female Sale. If for any reason you are unable to make the sale do not hesitate to give anyone of the First Class team a call. We will be very familiar with the offering and it will be our pleasure to represent you in a professional manner and assist you in selecting your next herd sire or heifer. DLMS will also be on site if internet bidding is what you prefer.

Wishing everyone a successful spring,
Darnell Fornwald

INSURANCE

Keystone Livestock Services
 Lois McRae 204-728-3058

100% GUARANTEE

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

INTERNET BIDDING AVAILABLE

DLMS 780-699-5082

Mark Shologan 780-699-5082

Go to dlms.ca for more information

IN-HERD USE SEMEN RIGHTS

The consignors reserve the right to collect semen on any bull in the sale for in-herd use only. If you have any questions please contact us.

HEALTH AND FERTILITY

All bulls have been treated with Ivermectin and have current vaccinations. Contact breeder for specific herd health programs.

BULL DEVELOPMENT & DELIVERY

Consignors will keep the bulls free of charge until May 15, 2020. Bull buyers must insure the bulls while cared for by the consignor.

Delivery Option A

Bulls can be picked up on sale day and a \$50 discount will be deducted from purchase price.

Delivery Option B

At the buyer's option and risk, the bull can return to the consignor's farm and delivered anywhere in Western Canada at no charge to central locations. We will do our utmost to deliver them right to your yard.

Delivery Option C

Bulls can return to the farm and be picked up any time at the buyer's convenience.

SIGHT-UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program to recommend the bulls or females that would meet your needs and refer you to one of the sales staff who will represent your needs in a professional and confidential manner.

EPD EXPLANATION

EPDs are "Expected Progeny Differences." They are a useful tool in selection. EPDs incorporate the individual animal with its ancestry performance. EPDs do not compare across cattle breeds. They are individual-based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull's progeny. The accuracy of EPDs for calendar year bull calves is generally above 20% (one out of five times) so use it cautiously as one of several selection tools.

We would like to welcome everyone to this year's edition of the Rebel's of the West Bull and Female Sale. Another interesting year has gone by with many changes happening in agriculture. But as the saying goes change is good or at least brings opportunity. We would like to welcome Darnell and the entire First Class Marketing group. We would also like to thank Brian Bouchard for all the years he has put in helping us with this sale. We would like to welcome Jake, Laura and Allan from Horner Cattle Co. to the sale this year.

We have several bulls this year off our main herdsire Franchise he is an easy doing sure footed bull that we are building a good group of females off. There is a good combination of red and black sons out of good producing cows. They are several generations polled and many of them will be homozygous polled. As always you are welcome to come down before the sale to see the bulls and there mothers or feel free to give us a call and we can answer any questions you may have. Hope to see you on the 15th in Virden for a visit and a super lunch. If you can't make it down give Terry or Lionel a call or Darnell from First Class Marketing or Brian from Bouchard Livestock. Thanks in advance for your purchases.

RR 1, Rapid City, Manitoba R0K 1W0

tybirm@hotmail.com

Tyson's cell: 204-724-2004

Welcome to the Rebels of the West Bull sale. This year we will lead off with a group of Missile sons. These bulls are moderate, powerful, but yet have the calving ease. We will also feature our first bull calves off our new walking herd sire LFE Night Hawk. We purchased this herd sire, along with Boucharde Livestock from Lewis Farms. The Night Hawk calve very easy, lots of vigour and grow exceptionally well for a calving ease sire. If you need a bull with some calving ease, but doesn't lack for performance take a look at the Night Hawk bull calves. If you have any questions about our offering please give us a call or any of the sales staff. Please join us on March 15 to look through the bulls and have some Rebels hospitality. If you're in the Brandon area before hand, feel free to stop in and check out the bulls. See you all in Virden.

HOMO POLLED/HETRO BLACK
Here is our lead off Missile son. 51G is a bull that is full of muscle, length and over all mass that you can really appreciate. 51G is out of one of the most complete cows, a 680 daughter, which has had many herd bulls through the sale over the years; she is an attractive cow with a great udder. If you're looking to add some performance to your next calf crop, 51G will fit the bill. Come find him sale day.

90G is one of the pen favorites. He is a more moderate bull with lots of middle, length of spine and super hair coat. This bull is one that has excelled to the top of the pen over the winter. The Missile bulls are easy fleshing and will add lots of performance to any herd. 90G is out of a good producing Black Edition dam that has raised good progeny for us over the years. The Missile/ Edition cross works very well, adding both performance and maternal to his pedigree.

HOMO POLLED HOMO BLACK 42G is one of the stoutest bulls in the pen. He is full of power and performance yet comes with calving ease. 42G is out of a good young predator cow that has done a great job on her first few calves. When you combine Missile and Predator, you're certain that calf is going to be one of the heavy weights in the group. If you're looking for a bull to add a few extra pounds to your steers in the fall, but want to keep some replacements, 42G will be the bull. Great cow behind this guy.

MORE BROS SIMMENTALS

Everett More and Irene Vanin

Box 1754, Virden, Manitoba R0M 2C0
 emsim1946@gmail.com
 C: 204-851-1737

We are pleased to be back for our 7th year as consignors to the Rebels sale. Our bulls were not creep fed as calves. After weaning they were carefully introduced to grain in their ration, and then fed a moderate energy ration formulated with a target gain of three pounds per a day. These two management decisions allow us to evaluate their true genetic potential, and will also promote their soundness and longevity as herd bulls. They are fully vaccinated as part of our comprehensive herd health program including their initial and booster Fusogard (foot rot) vaccination, and have been given a rumen magnet. They are tie broke and quiet.

HOMO POLLED BY PARENTAGE, HOMO BLACK 913G has been a stand out since birth. He is a stout, long bodied, deep quartered bull who comes by these features honestly. He is sired by Riddler, who is a proven performance bull in the Simmental breed, and whose daughters are definite breed improvers. The bottom side of the pedigree has top end cows back three generations. Grand dam 904W, has produced bulls who were regular sale features, and his good uddered productive young dam 608D is now two for two putting feature bulls in this sale. Check out his great EPDs as well.

HOMO POLLED BY PARENTAGE, HOMO BLACK 915G is a stand out no matter how you evaluate him. He is long bodied and deep ribbed with a smooth clean front end. His 79 lb birth weight contributes to him ranking in the top 1% of the breed for calving ease. He ranks #1 in our group for adjusted yearling weight (1515 lbs), and his performance EPD's are in the top 20% of the breed, while his milk EPD is breed average. His mother is a moderate framed 1st calver who held her condition raising this guy. Add in his quiet disposition and blaze face as icing on the cake.

HOMO POLLED BY PARENTAGE 918G has had the herd bull look since he was young. He was 2nd in our group in both Adj weaning and yearling weights. He is soft made, full quartered and big ribbed - a real meat bull. His moderate, tanky, good uddered dam is also a full sister to the More's Tank bull used by the Workman Bros, so consistency and quality built right in on the dam side - with both 901G and 918G's dams being full sisters. When you add in the stoutness 918G's sire Capone is noted to produce you come up with a mating that really worked.

Starwest POL Blueprint - Sire

FULL FLECKVIEH HETERO POLLED A goggled eyed traditional bull who was born twin to a heifer. He has developed into a smooth shouldered bull with the length and depth of body to sire performance calves. His EPDs are breed average or above for calving ease, maternal and performance traits- something a little hard to find in a Full Fleck bull. His dam, 121U was purchased at the Murray Farm dispersal and was from one of their hardest working cow families. 911G should leave females that would be a benefit to any herd, and his growth numbers indicate his steers should be performers also.

 everettolson@mymts.net

Welcome to Rebels 2020. I farm in the scenic Rapid City valley and will be breeding 60 cows and run 1400 acres of cropland and 250 acres of hay land. I am very proud of this year's offering which includes sons of CCLT Alliance and MRL Heat Seeker (a Missile son). The bulls are completely up to date on all vaccinations on a total herd health program and are wintered right here on the farm so if you want to come by for a look everyone is more than welcome. I look forward to visiting with everyone in Virden, MB on March 15.

HOMO POLLED Here is a bull I really like. Deep soggy, dark red and out of a beautiful uddered strong footed big volume Rock female. This is one to find sale day.

We are very excited to be a part of the Rebels of the West bull and female sale. We have 15 bulls for your appraisal. We will have videos of the bulls posted on our website. We would like to thank First Class Marketing for their hard work and management, as well as Gerry Gordon. Gerry has been a huge part of our program the last couple of years, guiding us as to how to best feed and develop our bulls to work and last many years for their new owners. If you ever find yourself in the middle of nowhere, drive a little farther and you'll hit our place. Visitors are always welcome. Thank-you for your support and interest and hope to see you at the sale!

The first of our three Dr. Phil sons on offer and the only completely red son. We were wanting a red bull to sire square, thick, big butted, dark red, and deep calves. Being a total outcross to most red bulls is just another bonus. Dr. Phil delivered. 9005G is all that and more. He's been a standout from day one and the biggest at weaning. His mother is very attractive and passes that trait onto her calves. Beverley - Jean's 4-H project in 2019 was a half sister to him. She was the champion female this year, and praised by many as well.

This guys picture doesn't do him justice. Proud fronted, big middled, a deep and round hind quarter, and very athletic. He's big hooped and moves freely. His mother has been a terrific young cow for us. Her first daughter was a Red Mountain daughter that was a feature and high seller in the 2018 Shades of the Prairies sale going to Ashworth Farm & Ranch. She has a Red Rocket daughter on her that needs to be seen. These Dr. Phil sons on offer are extremely consistent; all blood red, stylish and stout. We are sure impressed with them all and especially this one. He posted an actual yearling weight of just shy of 1500 lbs. Downey Farms will retain a semen interest.

Downey 9034G keeps getting better and better everyday. Lots to like about him; as long and deep as any bull you'll see, square and big topped, and very easy to handle. His mother has more than paid for herself over the years by raising a good calf every time. Don't overlook him, loads of potential here.

An impressive power bull that is big in every way. The longest spined bull in the pen, as well as square and thick in the hip, very attractive fronted, and tons of natural muscle on that quarter. He is parented by two very impressive black parents. Waldo II sired a great set of calves his first year, and 463B is one of our best black cows. If you're looking for a bull to add some jam and frame to their calves, he's your bull. Bred to the right set of cows, he'll raise you the cowboys type.

A red white face calving ease option for you to consider. We rank his young mother very highly. She had a Dr. Phil daughter in early January that looks sweet. His sire, Beefmaker, is a highly proven performance and calving ease option. Also the sire to "Red Western" and grandsire to the popular "Red Mountain" bull. Another great bonus, check out this guys EPD's, above average in every single category. Sleep easy with this one.

A very proud looking Fullblood Simmental bull. He is scurred and mother by a polled and tanky cow. Dark red, lots of spine, and just look at the muscle he carries. This guy will give your cows that pure shot of what makes the Simmental breed so great.

Downey 9025G is the natural calf of the MRL 355X matron. He is built the exact same way as his Vision half brothers just has that Waldo II power and extra growth. He'll mature into a very impressive individual.

The entire group of bulls this year we feel is one of the best we have brought. We have a number of red and black bulls that are going to be excellent bulls down the road for their owners. This guy here could very well be our lead off bull and for good reasons. Sired by the bull whose name says it all, Wheatland PREDATOR, and mothered by one of our up and coming females, a HARTS ALL IN X MRL 394T daughter. The most progressive cowboys swarmed over these Predator sons years ago, and they might just again for this stud. Thick, square, possesses that herd bull look, and backed by an impeccable cow family.

A very good virgin two-year old bull. His mother has been one of our most productive cows. These older bulls offer the most bang for your buck. His calves should come quick and easy, and be huge at weaning time.

HORNER CATTLE COMPANY

Laura Horner & Jake Rawluk
Alan Horner

Box 42 RR 1, Minnedosa, Manitoba R0J 1E0
 P: 204-868-5335 hornercattlecompany@gmail.com

Welcome to the 2019 edition of Rebels of the West. This is our first year consigning cattle and we are grateful for the opportunity to work with a great group of consignors. Thank you for allowing us to be part of this great event!

We have successfully purchased some great bulls from Rebels for a number of years who have had an impact on our commercial cow herd. The bred heifers we have on offer demonstrate the strength and consistency of these genetics. We sell large volumes of this type and kind annually off the farm by private treaty and we are sure they'll go out and work for you. In our program we calve out close to 500 Sim/Angus females. We then background and finish the steers and select and synchronize heifers as our own replacements and sale females selling by private treaty off the farm. With this we are given the unique opportunity to evaluate our breeding decisions in a large scale real world scenario. Our commercial needs steer the direction of our purebred operation.

We recently took the plunge into the Simmental breed just a short few years ago, and have shown with great success and have acquired some top notch donors who will have significant impact on our program. If you look into the pedigrees of these bulls you'll find lots of these bulls are off of first time calvers. In 2018 we picked up a large group of outstanding Simmental breds and they have developed to our liking making productive maternal mother cows with strong udders, sound structure standing on the foundation of a good foot.

We did something a little different this year and have decided to offer some Angus and Simm Angus bulls. We feel these bulls really complement the direction our commercial program has taken. The 2 stunner sons are outstanding and through our heavy usage of Stunner on our heifer groups we are blown away by this sire groups consistency and real world commercial value. The Sim Angus bulls are predictable with proven pedigrees, like Captain Morgan, Soo Line Chief and Final Answer.

If you're in the Minnedosa area coffee is always on and we welcome you to stop in and see the mothers of the bulls! Or get in touch with one of us with any questions.

We'll see you sale day!

Here is a bull who's big all around. He would be one of the longest spined and highest performing bulls in our offering. He's big hipped, big footed, large scrotaled, and structurally a very complete Captain Morgan son. His mother and grand dam are everything you'd look for your top producing commercial females. At the ripe age of 10 and 13 both dam and granddam are still in production today with the most square and functional udders in the herd. 7G has brothers working in the herds of Griffin Zalluski, Alonsa MB and Berner Cattle, Assinoboia SK.

A younger but very balanced and complete natural son off of our SCC Miss Kali Belle 20Y cow with a stacked pedigree appealing to any commercial cattleman or woman.

Over the years we've used S A V Harvestor heavily in our commercial and purebred herds, his offspring have excelled in terms of performance and have been consistent in type and kind in large numbers.

9127G has siblings working in the herds of WRAZ Red Angus, Hedi Tymko, Tony and Abbie Schmidt. 20Y has also produced a Harvestor son walking here at Horner Cattle Company and is the sire of 929G.

Red Carrier. This is a bull we appreciate as an individual for his sheer mass and volume. He's deep sided, big ribbed, big topped, deep in his heart, while still incredibly balanced and smooth through his front third right up into an attractive herd bull skull.

His dam, Red Double MM Bayberry 1Z has been a power cow at Horner Cattle Company. Throughout her years she's seen numerous successes in the show ring, being the 2 time Reserve Champion Female at Ag Ex, once as a bred and years later as a 5 year old cow, as well as being the Reserve Mature Female at Canadian Western Agribition, her son at side was selected as the bull calf champion at Manitoba Ag Ex. We made a deal to split a flush on the cow with TNF Angus in Alberta. Resulting calves are on the ground for 2020 and we are awfully excited. You'll want to keep every daughter off of 929G.

This guy is a true sale feature that checks all the boxes for us at Horner Cattle Company and has us awfully excited for the Stunner sire group. A March calf that has exhibited early maturity and masculinity from a young age. He's big volumed in every way and packed full of red meat and scrotal. He moves effortlessly while standing proudly with true herd bull character with an excellent big foot beneath him. We love the front third on this bull and he carries that head and neck high off his shoulder with an incredibly attractive skull. His dam is a beautiful first calver. She's moderate in frame, incredibly extended from hooks to pins with a lovely Angus skull and tight bag with adequate teat size and milk flow. If you want to talk consistency of sire groups I urge you to check out his brother selling in this sale. Both Stunner sons came at a gestation length of 283 days and 82 lbs. In 2019 we bred our sale heifers and replacements to Stunner, we've been so pleased with the progeny that in 2020 we are breeding our 100 heifers to Stunner. With Stunner semen in short supply jump on these two.

What can I say about this bull that hasn't already been said. Ever since birth we have been arguing which of these 2 sons is better. On March 15 you get to decide for us. This guys dam was an Active Duty daughter who was favorite of Alains at Section 7 Ranch and entered their ET program. She's heavy milking and hard working with adequately placed teats and size.

If you were to walk the pens at Horner Cattle Company I would be willing to bet this calf's mother would be one of the first to catch your eye. She's awesome footed, angular and pear shaped with a beautiful head, red and brockle faced; She's also arguably got one of the best udders in the herd. If you're looking for something a little more maternal or to improve udders within your herd look no further. He is sired by a Poker Face son who was the high seller just a few years ago for DownHill Simmentals, he's seen heavy use in our heifer pen and his daughters are second to none with excellent bags. His offspring calve effortlessly.

If you've been following along with our foot notes you've probably noticed we put a lot of emphasis on the momma cow. 902G's dam is one of our best. She's our leading donor and most winning female. Rose 23D has excelled in IVF embryo production and made a lot of friends in her time out at BVG. She's fault free in her make up with superior udder quality and is a proven producer. In her first et calf crop she produced the Reserve All Breeds Champion Female at AGEx's little lady classic, The All Breeds Champion Bull Calf at Ag Ex, Presidents Classic Simmental Top 4 Finalist, and The Agribition Reserve Division Champion, HFL Endgame 911G who went on to be the High Seller at Shades to First Class Cattle Marketing and Riverpoint Cattle Company.

This attractive blaze face son of 23D is incredibly long spined, athletic, smooth jointed and good footed. He's extended through his fore rib into his front third with an attractive skull and ties smoothly into his shoulders, giving indication of calving ease.

Footnote for Full Brothers, 913G and 914G Twin bull calves that haven't missed a beat. In February of 2019, after 1 sole flush we unexpectedly lost our \$16,500 Double Bar D Emma donor. She was our pick of Double Bar D's fall production sale. She was deep and massive ribbed yet elegantly made and incredibly sound with a picture perfect udder and EPD spread. We had big plans of building a cow family around her in years to come, but it just wasn't in the cards. In 2018 we sold her first high selling daughter off the yard in July to Longview Angus leaving us with no daughters in the herd after her death.

However, we lucked out in her 2019 ET production year, where she gave us 6 outstanding females and these 2 natural bull calves. The heifer calves made quite a stir in 2019 at Agribition and Ag Ex among a string of full and 3/4 siblings demonstrating the consistency of her production. Emma's daughters were class winners at Brandon in the Jackpot and Open show, one being selected as the Overall Reserve Simmental Calf.

Take your pick on these 2 bulls, and know that they're the only and last direct Emma sons to sell. Black or Red these full brothers are packed with calving ease goodness. They're deep bodied and big ribbed beef bulls just like their mother. Their daughters will be highly desirable.

Maternal Brother

We've thought highly of this bull from the very start. he would be one of Laura's picks of the entire pen. His dam is a beautiful dark red and highly productive 1/2 blood Soo Line Chief Daughter that we purchased from Spring Creek Simmentals. She's raised multiple herd bulls all specializing in shorter gestation length and moderating out birth weights of higher performing sires. Structurally this bull is extremely complete, he's moderate and is good footed, smooth shouldered and jointed, big ribbed and adequately muscled.

This calf certainly didn't want to cooperate with us on picture day. He's a calf that we really appreciate in the flesh and another bull that could service a group of heifers. He's soggy made with a thick hair coat and big scrotaled. His dam is a direct daughter of the high selling MRL Smarty Pants III and the \$160,000 calving ease specialist KWA Law Maker. She's excellent uddered and is nursing a red Missile daughter who is a 2020 favorite.

3/4 sister - selling to Double Bar D

We've used Absolute for years on our heifer groups and have found him incredibly consistent. He calves effortlessly and calves come out with lots of vigor and grow rapidly. 994G's mother is another first calver from Double Bar D who has the superior udder quality we have come to expect out of our Simmental females, in 2020 she is nursing a missile heifer calf who has us excited. 994's genetic combination of Absolute, Red Mountain and Captain Morgan really excites us in terms of maternal and performance. We think this calf has all the right pieces and gets better everyday. A 3/4 sibling was a feature heifer calf at Shades, selling to Double Bar D.

Welcome to the 2020 edition of the Rebels of the West bull sale!

Rawluk Livestock has on offer 6 premium Black and Black Baldie Simmental influenced open heifers selected out of our replacement heifer calf pen. Since our beginning in 2012 we have strived to produce high quality functional cattle. Our operation has been built on years of A.I. use of superior Black Angus and Simmental based genetics.

The heifers are February 2019 born and have had their pre-breed vaccines consisting of Bovishield FP5 L5 and have been vaccinated against blackleg with Covexin 8 as well as dewormed with Ivomec. Also developed on a balanced TMR ration with fully chelated minerals.

We offer these heifers with great confidence that they will turn into very productive cows.

TERMS AND CONDITIONS

The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. First Class Cattle Marketing reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, First Class Cattle Marketing reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, First Class Cattle Marketing and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

BID Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

GUARANTEE All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. First Class Cattle Marketing assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

FIRST CLASS CATTLE MARKETING LTD IS AGENT ONLY It is clearly understood that First Class Cattle Marketing acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. First Class Cattle Marketing does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. First Class Cattle Marketing Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
