# 17 seventeen years of building quality

## Welcome FROM HOEGL LIVESTOCK, ROBB FARMS AND GREENWOOD ANGUS

Welcome to the 2022 edition of the Robb/Hoegl/Greenwood Bull sale. It is hard to believe we have already been through another full year of calving, breeding, seeding, haying/silaging, harvest, shows and sale seasons. My mom always said the older you get the faster the years go, and she wasn't kidding.

We have all been so exceptionally happy watching this group of bulls develop. The thought and foresight into making these bulls the best quality we can starts with breeding decisions, with our customers' needs front and center.

The sale combines the top of each of our herds, with a nice combination of Fullblood, red and black Simmental and Angus. The bull sale offering is selected by all three programs with exceptionally high standards; we offer only bulls we would look for to improve our own herds with sound, high quality performance bulls, built to last and most importantly backed by great cow herds. The sale offering includes over 20 embryo transfer calves from some of the best cows in the industry.

We all take pride in our customer service and look forward to feedback and hearing of success stories with our genetics. With that said we all know this cattle industry isn't perfect and if you do experience a breakdown or problem with your bull's we hope to hear first and will do our very best to fulfill your herd bull needs. We back our programs 100%! We are all passionate about our programs and feel we have a good grasp on what our bulls can offer you. We look forward to helping you move your program in the direction you wish; we invite you to call any of us or the sales staff before sale day to discuss your herd bull needs. Better yet, to get your best look at the bulls come for a tour at our farms anytime - The coffee is always on and the beer is always cold!

The bulls will also be available for viewing at the Lloydminster Exhibition grounds Tuesday and Wednesday before sale day. Please join us Wednesday night for a free supper and our "Caesar Social". We look forward to seeing you Wednesday night and Thursday the 24th for sale day. We look forward to working with our great customers and welcoming new ones that will become like all, great friends. Enjoy browsing through the catalog and selecting your next Herd bull from Robb Hoegl Greenwood!!

## Welcome FROM BOHRSON MARKETING SERVICES LTD.

One of the highest quality events we get to annually help promote every spring would be the Robb/Hoegl/Greenwood bull sale and we feel this years offering is not only as large in quantity but is absolutely the deepest and stoutest in sheer quality. There are very few bull sales where you can find three high quality programs offer this many bulls that have this much diversity at one place and one time. The loyal repeat customers across all three of these industry leading programs is an absolute testament to the quality of bulls on offer, the productive cowherds backing them and the devoted operations that present to you this 2022 bull sale edition.

Hoegl Livestock annually steps up and sources the absolute best walking sires they can track down and we feel the combination of that along with their strong E.T program is very evident in this years set of bulls. The extra age embryo transplant bulls on offer are a true sale highlight and feature their own knockout donor female in 5IA as well as a trio of sons off one of the great red donors in Sammie. The yearling bulls on offer are as consistent and deep in shear quality through out their string as ever before and are highlighted in each Fullblood, Red and Black divisions respectively by industry leading pedigrees with lots of predictably and a tonne of potential for big Return On Investment.

Robb Farms has an exceptional set of bulls and we feel one that is extremely diverse. Blacks, reds, fullbloods, blazes, heifer bulls, performance bulls and bulls that offer high maternal qualities will be found in spades throughout the Robb pen of bulls. Robb Farms has always been known for having one of the top notch cowherds that puts fourth one of the stoutest pens of bulls annually and we feel when you analyze the new herd bulls and females they introduce into their cowherd yearly, it's evident why. The exciting rookie calf crops from both LFE Stratton and Double Bar D Big Red, both bulls proudly owned and utilized at Robb Farms, certainly have put some excitement and quality in this already dominant bull pen. You will see as you read the footnotes in the Robb section how productive this cowherd is as many cows backing these bulls are mentionable as matrons that annually put a high quality bull into the sale.

One of the best Angus programs in the land is north of Lloydminster at Greenwood Cattle. The Payne family is an industry leader in terms of quality cattle and with the work of their extensive E.T program and one of the strongest production cowherds you'll find, it's obvious why their bull pen is so stacked. This is the largest set of bulls Greenwood has been able to offer and we feel it rivals any other string of Angus bulls you will find. Many half, 3/4 and full sib brothers will be on offer, a very good opportunity to purchase multiple bulls with the same genetics to produce a very consistent set of calves for you, the commercial producer. Greenwood is also frequently known for having many of the elite herd bulls that breeders annually talk about throughout the spring. We feel this years set of bulls highlighted by some of their own feature donors like 28Z, 1424B and 23D as well as many other very high quality cows back this set of bulls up very well.

This bull sale is backed by three very well respected programs that have exceptional cowherds that utilize the best possible bulls and genetics available to continue to improve their program to always have something new and valuable for their customers to be able to use and profit from. We really encourage you to reach out to all these outfits and discuss the bulls on offer and your own needs with them. Better yet, go for a drive to these yards and analyze the bulls, their dams and the hard working operations that back it all up. If you are unable to make it sale day, please feel free to reach out to any of us at BMS as we are very familiar with all three of these programs and would be glad to help represent you on sale day with our free order buying service. We look forward to discussing this exceptional set of bulls. See you in Lloydminster!

**LOT 69: RECOMMENDED FOR COWS.** RUSH IS A STANDOUT INDIVIDUAL THAT DESERVES SERIOUS ATTENTION AND CONSIDERATION. HE'S THE RESULT OF AN EMBRYO PURCHASE WITH OUR FRIENDS AT BLACK GOLD FROM ONE OF BROOKINGS MOST POTENT DONORS. 90J IS A MATERNAL BROTHER TO THE \$94,500 BROOKING EMERALD WHO LED OFF THE HISTORIC ROSE BOWL EVENT. HIS DAM BROOKING BEAUTY 9051 WHO IS NOW DECEASED IS ONLY BEGINNING TO MAKE HER MARK AT BROOKING AND YOU'RE GOING TO BE HEARING A LOT ABOUT THIS COW IN THE NEXT FEW YEARS WITH 27 HEIFER CALVES REGISTERED TO HER IN 2021. TWO OF WHICH ARE FULL SISTERS TO RUSH AND NEAR STANDOUTS IN THE BROOKING AND GREENWOOD REPLACEMENT PENS. THIS BULLS ACTUAL DATA COUPLED WITH HIS EPD'S IS IMPRESSIVE ACROSS THE BOARD. HE'S RANKED IN THE TOP 1-2% FOR WEANING AND YEARLING WEIGHT WHILE BEING ABOVE AVERAGE IN ALMOST ALL TRAITS. HIS OUTCROSS SIRE HAS BEEN MAKING WAVES SOUTH OF THE BORDER FOR A FEW YEARS AND IS JUST GETTING STARTED HERE IN CANADA. RUSH IS AS UNIQUE TO THE EYE AS HE IS ON PAPER. HE'S SOUND ON THE GROUND, MASSIVE IN HIS MIDDLE THIRD WHILE REMAINING UP HEADED, SQUARE HIPPED AND GOOD TOPPED. 90J IS VERY DOCILE AND EASY GOING, BIG SCROTALED AND GOOD HAIRED; HE'S ONE THAT'S WORTH THE DRIVE TO COME AND SEE.

THESE SOUTHERN CHARM PROGENY ARE REALLY IMPRESSING US IN THE HEIFER AND BULL PENS ALIKE. WHILE WE DON'T HAVE A TON OF PROGENY, THE ONES WE DO HAVE ARE ALL STANDOUT INDIVIDUALS. THEY ARE EASY DOING, THICK AND HEAVIER MUSCLED CATTLE. 29J IS MODERATE MADE, EXTRA STOUT AND A BELLY DRAGGER THAT'S CORRECT IN HIS BUILD. A MATERNAL BROTHER SOLD IN LAST YEAR'S SALE TO DAVIES LAND AND CATTLE. A MATERNAL SISTER WAS A SUPREME CHAMPION FEMALE FOR THE TER-RON FARMS CREW AT LLOYDMINSTER STOCKADE ROUNDUP. A UNIQUE HERD BULL PROSPECT WORTH YOUR APPRAISAL WITH AN OUTCROSS PEDIGREE.

**LOTS 71-73: RECOMMENDED FOR HEIFERS OR COWS.** THIS TRIO OF BROTHERS HAS HAD US EXCITED FROM THE TIME THEY ALL HIT THE GROUND. WE ORIGINALLY DID THIS FLUSH IN HOPES OF MAKING SOME BEAUTIFUL COW'S IN THE COMBINATION OF OUR MATRIARCH DONOR 28Z AND THE \$160,000 DAM OF U2 COALITION; U2 ERELITE 109Z. WE DID END UP WITH 1 TOP PROSPECT HEIFER, BUT THESE 3 BROTHERS REALLY PROVED 28Z AS A HERD BULL FACTORY. OUR PICKS AND OPINIONS HAVE CHANGED BACK AND FORTH BETWEEN THESE BROTHERS AS THEY GIVE YOU SOME DIFFERENT OPTIONS AND FLEXIBILITY. 21J WAS THE EARLY STANDOUT AND PASTURE TOUR FAVORITE OF MOST VISITORS FOR HIS MASS, MUSCLE PATTERN AND HERD BULL LOOK. HIS IMPRESSIVE SPREAD FROM 75LBS BIRTH WEIGHT TO ADJUSTED 924LBS WEANING AND 1488LBS YEARLING WEIGHT IS HARD TO ACHIEVE. THE YOUNGER BROTHER 47J HAS BEEN CRANKING IT ON AND PROVING TO BE A BIG TIME HERD BULL PROSPECT. WE LOVE THIS BULLS STRUCTURAL DESIGN, HAIR COAT, EARLY MATURITY AND OVERALL PHENOTYPE. HE REALLY REMINDS US OF THE \$31,000 GAME NIGHT BULL PURCHASED BY LEWIS FARMS. 20J OFFERS THE MOST CALVING EASE BUILT PACKAGE, WE'D LIKE TO CONSIDER HE'D BE BOMB PROOF IN THE HEIFER PEN. HE'S EXTREMELY SMOOTH MADE WITH A NICE HEAD AND TRADITIONAL ANGUS STYLE. WE WILL LEAVE THE CHOICE AS TO WHO'S YOUR FAVOURITE UP TO YOU. ONE THING THAT IS FOR SURE IS WE'D LIKE TO USE ONE OF THE BROTHERS IN OUR OWN PROGRAM MOVING FORWARD AS WE FEEL THE MATERNAL BACKING BEHIND THEM IS TOP NOTCH WHILE THEY ARE PHENOTYPICALLY IMPRESSIVE AND IDEALLY BALANCED ON PAPER.

## 2021 RHG SALE *Candid*

It is a pleasure working with the hard-working folks at Hoegl Livestock and Greenwood Cattle.

The cowherd utilizes a customized winter mineral program that is balanced to the forages they have harvested.

This helps in the proper development of the bull calves at a young age and in utero. The bulls feeding program is built to maximize forage utilization and gut health.

The bulls are developed on grass with their dams and then moved onto a balanced TMR that promotes lean muscle growth. Organic minerals are used to ensure proper immune function and overall health of the bulls.

The nutritional health and development of the bulls and the entire cowherd is of utmost importance and is continually being tweaked to meet environmental and seasonal conditions.
