*Welcome...*

I'm not actually sure if "welcome" is enough?

Come on in, kick your boots off, sit down, let's pour a coffee (or something better) and have a good ol' chat.

There, that's better.

That is what all of our friends, family, neighbours and customers deserve after putting up with ALL that we've gone through in the last 12-14 months. In saying that, there are crucial lessons that have come out of 2020-2021.

1. Family, and the people in our "circle" have been, and continue to be, the most influential part of everyone's lives. They keep us grounded, they support us, they drive us, but most importantly, they love.
2. The concept of a locally sourced, domestically developed product for which you can trace the origin is one that our agriculture industry has employed for generations. Over the past few decades, greater attention has been paid to longstanding practices that conserve and protect our land, our most valuable natural resource. Farmers and ranchers have been doing this out of responsibility long before it was "fashionable" and newsworthy to do so. Now it is cool to know the lineage and production methods of how our highly attractive Canadian beef got to our table; I think ranchers have wanted this for years. My point? We have so much to be proud of as Canadian cattlemen and women and supporting each other is best for all of us.
3. The agriculture and agri-food sector has been the gold standard during a world-wide pandemic as a beacon of consistency, steadfastness and integrity. Agriculture feeds the world, it clothes us, it is most viable and highly utilized during a time of such turmoil. And our future has never looked brighter.

If you don't wake up every morning, grab your cup of coffee and get a smile on your face for being part of something THAT profound, THAT enlightening... then man, I just don't know what will. A ranch, its simplistic beauty and awe-inspiring nature is the best place in the world to raise a family... to teach the next generation about stewardship and work ethic... to grow your labours. Most importantly, it's our "happy place".

Speaking of our "happy place", our family makes us all happy. There are still four generations living and contributing to the operations of Diamond T Cattle Company on a daily basis. Gramps has officially retired from operations but keeps a keen eye on us from his perch at the kitchen window. Grandma Donna (GG) still volunteers and is the first person to bake a pie for company. Mom and Dad (Roy & Tami) are constantly babysitters and casual labour even if the pay is minimal. Tracy, Rudy, Tyson, Lisa and baby Emma are building up their small herd but find time to be entertainment and alley pushers when needed. Grandma Deb has a large task of supporting Justine's garden and lending multiple hands when asked.

Then there's the day-to-day crew. Hiller is comic relief, keeps everyone's motors running and our social convener. Calynn is our cow-loving, horse-crazy, passionate, family-oriented queen. Rob has taken to driving most of the tractors and Brody isn't so sure about being the designated "gate opener." Lastly, Justine is the cow boss, vaccinating, tagging, processing and sorting all the cows so that it gets done correctly and efficiently.

I guess we better talk about the bulls, hey? A bull sale takes about 4 years to plan and prepare for. Sire selection, crop rotation, pasture management, dam production, hospitality, venue prep, calving, raising and developing... just to name a few. So, to say that this particular pen of bulls has been a long time in the making... is an understatement.

The bulls are growthy, better-footed, hairier, thicker-hipped, stouter and more massive than any set before. I know it's a cliché to say that "this is the best pen of bulls we've raised", but it's true. Through sire selection, ruthless dam production pressure and an increased focus on optimizing growth development, we truly feel that this is an elite offering of genetics that has something for everyone. We have heard your constructive feedback and positive reinforcement from the past few years and we've taken everything into account to make these bulls genetically superior, to better give you what you've asked for.

The heifer pen is deeper than ever and it is hard to part with them, as it should be. In fact, I'm surprised I got so many past Rob and Justine down the alley and into the chute to clip them up for picture day. On a number of occasions I heard, "why the heck are we selling this one?"

So please... flip through, enjoy, and we will see you on Tuesday, April 6th, at the ranch. Stop in beforehand, view the offering, tour the cows, come for coffee or feel free to visit with any one of us and/or the talented marketing agents we have on staff. We can't wait to see you!

*The Folks at Diamond T*

Welcome to the Diamond T Cattle Co "Stockmans Choice" Bull & Female Sale hosted by the Gardner/Smith family as it is one of the deepest sets they have offered to date. This family has decades of agriculture history and are very passionate about future success of the industry throughout the country. They're very involved in community events and they are the type of good-hearted people that you want to do business with. The passion they have for quality purebred genetics is evident as you'll see throughout this deep offering.

The bulls on offer are designed for longevity and profitability for you, the valued customer. They have brought this set of good footed, sound structured and very complete bulls along to suit the needs of their clientele. We annually see a large amount of repeat customers in this sale and it is a result of the strong genetics and wise management that is provided. The set of heifers on offer is from the top of their replacement pen and showcase many of the sire groups on offer to display the quality type of females you will receive when investing in a Diamond T Bull for your cowherd.

The red and black genetics are deep in quality and the high amount of calving ease bulls are impressive with many cow bulls on offer as well. We encourage you to reach out to Brody, Justine or Rob to discuss the sale offering as their main purpose is to supply you with a bull or female that will complement your cowherd. Ourselves at BMS are very familiar with the offering, we would gladly assist in purchasing your next bull or heifers if you are unable to attend. We do hope you join us for a strong set of sale cattle and outstanding hospitality put forth by dedicated cattle producers that have your best interest in the forefront.

Best regards,

*The Bohrson Marketing Team*

## SALE LOCATION

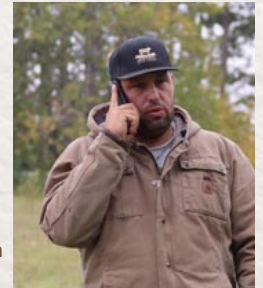

## DIRECTIONS FROM OLDS, AB

West of Olds on Hwy 27, 16km. Turn south onto Range Rd 34, Diamond T is the first farm on the east side of the road.

## SIGHT UNSEEN PROGRAM

With a cow herd, a bull sale, volunteer commitments, scholastic activities and many more life challenges, we very much understand that being everywhere and doing everything just isn't always possible. In saying that, in an ideal world we want you and your entire family to join the hospitality at our bull sale but if for some unforeseen reason you can't attend, we want you to feel confident in our program.

Our grandparents have been raising cattle for 50+ years; we've been involved since birth, so we understand the fundamental characteristics and achievements that the cowherd at Diamond T strive for and achieve. Our cow herd is built around structural integrity, ease of fleshing, superior fertility, calving ease and the adaptability to thrive in numerous environments. We live with these herd sire prospects and their mothers on a daily basis. We develop their rations, understand the forage intake, study the genotypic balance and potential of the breed. But most of all, we know that the #1 priority is finding the ideal bull for you and your situation.

Our program is very straight forward: give Brody a call in the weeks leading up to our sale to discuss your goals, your cow herd and the requirements you expect your new herd bull to achieve. From that information we gather, we'll fit you with the bull or bulls that satisfy your requirements, budget and goals all from the comfort of your home, office, shop or truck cab while you're watching "green tag 938" calve. Please rest assured that our most capable bulls will be specifically selected by Rob, Justine and Brody with all of your suggestions, needs and objectives taken into account.

Bull sale shopping is so streamlined nowadays with the excellent service of companies like Mark Shologan's DLMS, more advanced EPD metrics through breed associations and increased performance data. That being said, the relationship between you and us is still of the utmost importance. We want you to feel extremely comfortable and trust that we are going to assist you in finding the most suitable and best herd sire for your cow herd. We're not satisfied until you are and your family is.

- Here is one of the most CALVING EASE, heifer safe options in the entire black offering
- 79 lbs BW with a -0.4 epd and +8.0 for CE, this long-sided, hairy, round-hipped bugger is sure to impress your replacement pen
- Dam is a powerful, heavy-milking, broody cow with an outcross pedigree
- Maternal brothers at Klautd Ranching, Coralta Farms, Cleveland Cattle
- One maternal sister retained and one that highlighted last year to young Ethan Yaremko

*Customer Spotlight...*

**SKOCDOPOLE RANCH**

This 3rd generation family outfit moved to their current location west of Big Valley in the early 1970's. Vast rolling hills, coulee bottoms and a ton of rugged bush terrain, their land spans all sides of the Red Deer River. Skocdopole Ranch is all about hard work, family and the ability to produce highly efficient margins. Originally involving Jack & Barb and brother Jerry & Elaine, it now includes their next generation, Jack's son Tim and Jerry's boys, Wayne and his wife Holly and Dale and his wife Dianne and their families.

The ranch runs roughly 1500 momma cows that calve in the spring with a large group of replacement heifers starting April 1st. For the past 15 years their cow herd has been predominantly Red & Black Angus-based with a contingent of Charolais bulls as well. Steers calves are all marketed in the spring, selling to local producer Kent Butterfield. Heifer calves are kept, grazed, developed and raised as replacements.

Annually, 1000 acres of corn is planted, grown for both grazing and silage. The Skocdopole family appreciates grazing corn for its high efficiency and ability to decrease the mechanical feeding days significantly in order to maximize margins.

This hard working family is dedicated to the industry and integrates themselves into every facet of farming, ranching and agriculture as both a business and a way of life.

We are proud to call them customers and friends.

*Customer Spotlight...* **DAVY BROTHERS**

“The Davy Brothers family farming operation east of Olds, AB includes the three brothers Soren, Dan & Butch and their families. After moving from Airdrie, they chose to nestle in the fertile, productive farming community between Torrington and Reed Ranch. The outfit consists of cereal grains and a commercial cow/calf operation that retains females and also markets a large portion of calves privately with significant success based around carcass merit and yield abilities. At this time, the guys are calving out roughly 130 head of momma cows in the spring that are predominantly angus/angus cross females.

“Over the past several years we have had great success with easy calving, tapered bull, both Black & Red Angus, from Diamond T Cattle Co. with higher-than-average weaning weights and great replacement heifers” notes Butch.

- Hands down the best CALVING EASE Red Angus bull we've raised to date
- To construct a herd sire that is this heavy-structured, big-assed and fault free on the move is rare to find in a 74 lbs BW package
- We all absolutely love the breed character and Angus head that Valour 2016 carries
- This stud is spectacular and massive from all angles
- The Red Taylor's Cowboy 43B daughters are beautiful-uddered and wean off more pounds of calf than most contemporary groups
- Maternal brother sold to Rudolf & Ruth Obrist and is being used in their elite commercial and purebred herd

- The longest-ribbed, biggest-scooped Authentic son on offer with that cherry colour that everybody loves
- This huge-timbered, rugged rockstar is the first bull people are drawn to in the red pen for his overall power and presence
- Statistically he is all there with a +52 WW (top 6% of breed), +110 WW index, +107 YW index, all with an 80 lbs BW
- Bryan Mackenzie saw this rascal and his mom last summer and stated, "Man, that's one hell of a pair"
- Bailout 2049's dam is beautifully-uddered with loads of milk and style
- He has two maternal sisters retained in the herd and 2 brothers that have sold to Eric Sheilbe and Davidson's Prairie Rose Ranch

- As John Dutton says in "Yellowstone", "The beauty of this ranch is worth fightin' for, every damn day"
- Yellowstone 2033 has the magnitude and presence like that of "Yellowstone" ranch
- Ultra soggy-middled, as much flank and forerib as any bull in the offering with so much meat and muscle packed into a moderate package
- You'll travel far finding feet and structural integrity matched by these Red W Sunrise Authentic 104F sons
- Dam is a perfect-uddered, dark red, front pasture type that is always admired

- Ransom 2085 has the pedigree and credentials that most Red Angus enthusiasts strive for
- 78 lbs BW, an almost 800 lbs adj 205 (112 WW index), and an elite donor prospect on the maternal side suggests that this stud is for real
- Ransom has an exceptional, dark red foot, loads of presence and length, more than average frame and an expansive, efficient rib structure
- Dam was the high selling cow at Red Round-Up this fall to Epp's; she is a fault-free, stunning female
- Maternal sister 1901 sold to Leelynn Fornwald and is going to turn heads in the Red Angus breed for a couple years

- The heaviest weaning weight Red Angus bull we've ever raised - 122 WW index - is Dignity 2071
- His outcross dam from the good folks at Golden Sunset produced a whopper that crushed the scales over 950 lbs at weaning, adjusted to 868 lbs
- His dark cherry red colour, tremendous length of spine, rugged mass and volume and beautiful mother results in a unique breeding piece
- If pounds of gain and massive steer cheques are important to you, 'rubbing elbows' with superior calf producers like the Dave Rasmuson's, Chase Sande's and Jason Packer's of our world, Dignity 2071 is your ticket

<b>BREED EPDS</b>	2.5	40	64	0	5	20

- I sound like a broken record... CALVING EASE bull, with a good foot out of a beautiful-uddered momma cow... BUT, if the shoe fits...
- 78 lbs BW heifer's first calf, this smooth Authentic son is correct skulled and shouldered, thick-ended and stands true on a full, proper heel and front toe
- The Amber cow family is built around fertility, longevity, and huge milk that wean off high percentages of body weight

- This highly-ranked, uniquely-made outcross will sure find friends walking through the pen
- How about a 69 lbs BW combined with a 754 adj 205 (106 WW index) and a 108 YW index off a first calf heifer that only weighs 1100 lbs?
- You'll take a couple glances at this loose-made, big-ribbed, soggy-featured bull and admire his centre of gravity
- Staunch 2091's dam was our bred selection from the heartfelt Windy Willow red dispersal; she is hitting it 'out of the park'. Colin Sauder was an absolute 'prince' of a man; we miss him and his encyclopedic pedigree, performance and Angus knowledge

- It'll be easy to find this dark cherry red, wooly, smooth-shouldered rascal on sale day
- He's built on a dark foot and is so free-moving, he'll roam some big hills to get the cows covered
- Dam is an outcross pedigreed, strong-uddered female we purchased from Lauron Red Angus and their maternally-driven cow herd

There is always lots of excitement down at Diamond T Angus. A record setting year for feed production, not just in volume but also in quality. New exciting cow opportunities have found their way west of Olds as well. The cow herd utilizes a customized mineral program that is balanced throughout the year. This supports proper bull calf development from a young age. The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms and then moved onto a balanced TMR that promotes lean muscle. The bulls are challenged with a foraged based TMR to help them develop to their genetic potential. Organic minerals are used to ensure proper immune function and overall health. Diamond T Angus uses a total nutrition program on their entire operation, ensuring optimal cattle performance. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!

- Our lead-off heifer is one that it absolutely pains to sell; our loss is most definitely YOUR gain!!
- There may have actually been a "domestic" in the pen between Justine, Rob and I when I suggested leading off with 884C's daughter
- A broody, highly productive female that has the genetic and phenotypic potential to be a 'big-time' brood matron
- Tibbie 2014's dam is a maternal sister to LLB Concorde 884D; our purchase of him was influenced by obtaining her two years prior
- Maternal brothers have headlined past sales to Skocdopole Ranch and our long-time supporter, outstanding cattleman Lawrence Schmidt
- YW index of 115

DIAMOND T CATTLE COMPANY MATERNAL REFERENCE GUIDE

thank you... TO ALL OF OUR PAST BUYERS. YOUR SUPPORT & FRIENDSHIP IS GREATLY APPRECIATED!

## terms & conditions

*Diamond T Cattle Co. will be referred to as The Sellers.*

**CATTLE INSPECTION** All carry permanent identification and sale tags corresponding to sale lot numbers. All animals shall be available for inspection prior to sale.

**BREEDING GUARANTEE** All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of an unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply.

**PEDIGREE GUARANTEE** When you purchase from  $\diamond T$ , you are purchasing a guaranteed pedigree. For many years now, we rely on the Neogen Canada Inc. genetic diagnostic lab in Edmonton to fully parent verify every calf we produce that we keep or sell as breeding stock. Your investment is hard-earned and we want to guarantee that you get what you pay for in the pedigree!

**INSURANCE** Ownership risk to purchaser commences when the Auctioneer's gavel falls. Livestock coverage will be available on sale day, from Cassie Dorran, Stockmans Insurance, at any time.

**TERMS OF SALE** Are cash or cheque at par, payable to clerks of the sale on sale day. U.S funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. The seller reserves the right to withhold animals from export shipment (foreign or domestic) for whom payments have not been received prior to departure times.

**ALL PERSONS** Everyone who attends the sale does so at their own risk. The owners and sales staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

**ANNOUNCEMENTS** Errors discovered in the catalogue will be corrected by the announcements from the auction block at sale time and such corrections will take precedence over the printed material in the catalogue.

**RIGHT TO SEMEN** The sellers reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the sellers' expense and the buyer's convenience. Any semen collected will be for the sellers' in herd use only.

**DELIVERY** The sellers will deliver bulls to central points in Western Canada and will assist with trucking to Eastern Canada and USA. Bring your own trailer and the sellers will deduct \$100/bull off the purchase price for bulls taken home on sale day.

**SIGHT UNSEEN PURCHASE PLAN** We would like you to attend our sale, but if you cannot, you can have Brody personally handle your purchase. You know what you want in your breeding animals, we know best the potential of the bulls on offer and will easily be able to satisfy your specific needs. Call him with your specifications and discuss the offering, preferable a week before the sale. Brody will gladly assist you with your selections and represent you on sale day. We guarantee full satisfaction upon delivery. Brody Gardner can be reached at 403-994-0552 and is always available for and looking forward to your call.

**WINTERING PROGRAM** The sellers will winter all bulls remaining at the ranch free of charge until May 1, 2021, and fee of \$3.00/head/day will apply for any days thereafter.
