Simmental and Angus  
Production

*sale*

**\*NEW DATE, TIME & LOCATION\*** Saturday, October 30, 2021 4:00 PM Lomond, Alberta  
*Full Fleck and Purebred Simmentals and Black Angus*

## welcome from • Sandy Hill Simmentals

WELCOME TO SANDY HILL'S SECOND ANNUAL SIMMENTAL AND ANGUS Production sale. The set of cows on this ranch are true working cows as they are run on range and not irrigated pasture and the likes of that. The cow herd has to be good footed and be able to rustle for their groceries, therefore every cow is good footed, good legs, and good milkers to produce the good calves.

The bred heifers were bred to start calving in December and are Bred to the \$42,000 Heatwave Bull, info will be listed on each lot, once again there will be FF, reds, and blacks. In the bull pen there will FF, reds, blacks, and Black Angus as a new addition, the heifer calf pen will be represented in the same way.

The bred pen of heifers are a top notch set, as the bull pen and the heifer calf pen also, good thick stout, easy doing cattle.

PLEASE NOTE THE NEW DATE OCTOBER 30th, AND THE NEW LOCATION AT THE NEW RANCH HEADQUARTERS.

Thanks Mike Maronda

## welcome from • First Class Cattle Marketing

Welcome to the 2nd Annual Sandy Hill Simmentals & Guests Bull & Female Sale. It is with great pleasure that we are once again working with Mike & Jessica on this great event. I would also like to personally thank Kelly, Colter, and Gary to the sale as our guest consignors. The group has brought out a tremendous set of cattle and frozen genetics for your appraisal. The bulls on offer are the right kind, stout, powerful and sound. There is a nice split of cow and calving ease bulls in the group in both the Simmental and Angus divisions. There is also a very strong set of females on offer represented by bred cows, bred heifers and heifer calves. Please study your catalogue and bid and buy with the utmost of confidence as these cattle are the right kind and they are guaranteed 100%. Mike has also generously donated a heifer calf to be auctioned off with the proceeds going the Vulcan Legion. Your support on this excellent cause is greatly appreciated.

Please plan on joining us October 30th in Lomond for the Sandy Hill Simmentals & Guests Second Annual Bull & Female sale. Mike also has some great hospitality planned for after the sale that you will not want to miss! If for any reason you are not able to attend, the entire team at First Class Cattle Marketing will be very familiar with the offering. It will be our pleasure to assist you in a confidential and professional manner on the purchase of your next genetic opportunity. I encourage you to call Mike, Kelly, Colter or Gary personally to discuss their consignments with them. Mark Shologan from DLMS will also be onsite if internet bidding is what you prefer. I hope to be able to visit with all of you in Lomond and I wish you a very productive fall.

Sincerely,

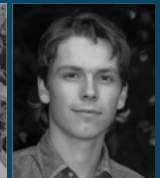

Darnell Fornwald

proceeds donated to Wally Legion Vulcan 403-485-8877 Money for a (50-50) cash grant.

Folks Sandy Hill's Ranch has been gracious enough to donate the sale of one heifer calf Lot 500 the Vulcan Legion they can receive a grant to paint and do other repairs to the building but, it is also 50-50 share. Therefore the Legion needs to come up with 50% of the cost. If the first buyer donates it back then the proceeds will continue to go to the Legion until there are no more bids or donations back for the heifer.

We all know the Legion helps many veterans, including widows and widowers of those veterans. We also all appreciate what the Canadian Veterans have done for us and dozens of other countries in the world so, let's not be bashful and let's reach out to those that sacrificed their life and some of their families. Thank You

## Pick of Herd Flush

You can choose any female from the herd, any breed or colour, Fullblood, purebred or Angus. Sandy Hill's Ranches will supply semen from any of their bulls in the tank if you are interested also.

There are many great females to choose from in every sector of the herd.

Flush to be completed by May 1, 2022. All flush expenses will be paid by the purchaser except semen for the flush if purchasers chooses to use semen supplied by Sandy Hill. Flush will be completed at Bow Valley Genetics. Guaranteeing 6 embryos with no cap.

MAD 1J Jalapeno

THE BULL PEN: Well folks now we hit the BULL PEN these calves are coming along just great and will be ready to go to work in the spring. Visitors to the ranch have commented that these calves are probably the best bulls we have offered to date.

BULLS FOR THE  
FULLBLOOD BREEDERS  
PUREBRED BREEDERS  
AND COMMERCIAL HERDS.

*Jalapeno* .....

1J is a Sidewinder calf that is just outstanding if you want long, thick, depth, clean, and walks out like he is proud, so if that is what you are looking for such a black calf then this is the one you one you want. Probably the best black calf born on this ranch, he will stand out on sale day for sure. With a 788 pound weaning weight and he is continuing to gain like crazy. Homo Polled Homo Black tests pending.

MAD 3J Jackolantern

*Jackolantern* .....

This is a Titanium for all you folks looking for such, this is a very good calf long, thick and lots of substance, this calf should have heavy weaning calves that will feed out well also. The dam of this calf is a first calver who did a very good job on her first calf having a 744 pound weaning weight.

## Jacks on Fire.....

Here is a half-brother to 3J so you could take them both and get a group of calves that are very consistent in style, 4J weaned at 770 pounds. They would look nice in your bull pen. These bulls will increase your weights and will be in demand for your commercial buyers or the purebred breeders.

## Jay.....

This Sidewinder bull is a red calf but still has the same structure as the black calves do, with lots of length and thickness and very free moving as well. These bulls as previously mentioned earlier are a good set of bulls and will not hurt you at all, like the heifers they were from the top end of the pen.

MAD 6J Jay

MAD 7J Jack Sparrow

*Jack Sparrow* .....

Here is a bull sired by Red Fuel this is a very good calf that is long, deep and has plenty of thickness to him, this is the only Red Fuel calf available in the sale so if you are a fan of his here is your chance to get the only one.

MAD 8J J-Lo

*J Lo* .....

This is another Sidewinder calf with a blaze face this is a very long bodied calf with a lot of friends who have seen him, we all know how popular these baldies have become so here is one for the picking.

9J

9J is a LFE 547E calf who has come along so well on feed, he is a young calf note the birth date weaning in early August put him behind the big boys but is gaining on them everyday. By turn out date he will ready to go to work, he is a goggled eyed calf and doing very well. Long and thick with great feet and legs under him and will develop just fine.

ANGUS BULL CALF

This bull could very well be a heifer candidate, and still have some growth to his calves. 10J is a deep bodied bull and has come right along since weaning.

17J

ANGUS BULL CALF

Take note of the birth date, and as all the calves were weaned Aug 4/21 so a younger calf, therefore the lower weaning weight. Since he has been on feed he is gaining well. These bulls would probably all fit your heifer pen.

## McLeod

This is a purebred bull born in November, he will be selling as an unregistered bull and he will definitely be able to cover a lot of cows next spring. He is a long bodied bull that will put that extra rib in those calves so those calves should weigh well in the fall.

The heifer calves are an outstanding group in every section of sale Fullblood, Reds, Blacks, and even a few Black Angus in the group.

MAD 100J Jael

*Jael*

100J is a Fullblood that is sired by the great LFE 547E bull that has done an outstanding job here and will continue on here doing the same, the 70X cow is still here so that tells more longevity in the herd.

Sandy Hill Hollie 007H

## Hollie

Well here is one that anyone looking for a black polled purebred will fall in love with, very deep bodied and thick, ultrasound 120 days for good early calf. Here is another heifer with great overall balance with of course great feet and legs, not to mention a great disposition this Heatwave calf could be a dandy!! Don't forget she is sired by the Cash bull who has sired some great progeny on this ranch.

*Breeding* Pasture exposed to Circle G Heat Wave 10H from March 8 to March 13, 2021, then exposed to Heat Wave from April 8 to July 15, 2021. Ultrasounded on August 12, 2021.

# Holyss

For you Fullblood people out there here is one ready to go, observed bred March 8, 2021, preg tested 150 days. This is one of those heifers that just catches every ones attention. 17H is making a beautiful udder, is long and thick and will no doubt become a great front pasture cow. There should be lots of longevity if her mother is any indication.

*breeding* Pasture exposed to Circle G Heat Wave 10H from March 8 to March 13, 2021, then exposed to Heat Wave from April 8 to July 15, 2021. Ultrasounded on August 12, 2021.

# Hatsy

This good all well balanced heifer, she is a little smaller framed girl than some of the others but by judging from her being 150 days in calf, she should be a productive cow. This girl is another Cash daughter and out of another X cow proving her longevity.

*breeding* Pasture exposed to Circle G Heat Wave 10H from March 8 to March 13, 2021, then exposed to Heat Wave from April 8 to July 15, 2021. Ultrasounded on August 12, 2021.

Sandy Hill Hatsy 019H

Sandy Hill Hosana 025H

## Hosana

Once again we have a heifer at 120 days pregnant and sired by Cash also, you could buy if you and have calves that are all 3/4 siblings, those bull buyers love uniformity. These Heatwave calves could tremendous especially out of this girl who has everything, this heifer has been the pick of the pen from most visitors and mine my pick of the blacks.

*breeding* Pasture exposed to Circle G Heat Wave 10H from March 8 to March 13, 2021, then exposed to Heat Wave from April 8 to July 15, 2021. Ultrasounded on August 12, 2021.

MAD 955H

## 955H

This heifer will have all you Fullblood breeders in a bidding war, this Battle Cry 262B calf is a solid red brockle face heifer is an outstanding female. 955 has everything you could ask for, she could be a show/donor cow. I am sure you could ask her for yourself as she comes right up for attention. Preg test estimate 150 days here is another Heatwave calf that could be just outstanding in your field, do not miss your chance.

*breeding* Pasture exposed to Circle G Heat Wave 10H from March 8 to March 13, 2021, then exposed to Heat Wave from April 8 to July 15, 2021. Ultrasounded on August 12, 2021.

That sums up the bred heifers for this year but stay tuned for next years!!!

I want to thank SANDY HILL'S RANCH for inviting me to contribute to their second annual production sale, this is a complete dispersal of my cows. I send out a big thank you to all the support I had from my customers in the past. Thank you in advance to all the buyers and bidders of my cattle in the sale.

I will be selling two heifer calves and fifteen bred cows, these cows are good cattle and work hard and produce great calves. All these cows are polled as well. These cows were all exposed to DANA MR WESTWAY 76G (WESTY) Reg# 1281160 purebred red bull that was \$14,000. This bull has a great disposition, huge hip, long and deep, with great testicles also.

*Kelly Peacock*

## Black Nettie

This cow has raised some exceptional calves and being bred to the Westy bull I am sure she will have another great one, her Riddler heifer calf is also in the sale. 7B is out of the same cow as the dam of Kuntz Sheriff 8A who I also raised.

*breeding* Exposed to DANA Mr Westway 76G from March 25 to May 16, 2021, then exposed to Ty-D's Superior 4H from May 16 to June 1, 2021. Observed bred on April 14. Preg checked to that breeding date.

## Riddler

8J sired by the great Riddler bull comes to you out of one of the best cows I ever had, she weans the heaviest calves and most correct calves every year. 8J is long, thick, deep, and moves very freely, this calf will have great mothering abilities, check out her EPDs!!!! She was the heaviest heifer calf in the pen. There is no question in my mind she will be a tremendous cow, maybe even put a halter on her Dam is also in the sale.

## Irresistible

Is sired by the great Revolution bull who many claim he was probably one of the best Simmental bulls ever. She is deep bodied with a good udder and another easy keeping cow. Homo polled and has raised some top end bulls in her time! Including her 2021 bull calf and she is bred back the same way. Bred to the tremendous Dana MR Westway 76G bull which sold in the sale in 2020. When you look at her pedigree and see the endless top sires it is no wonder she is such a good cow.

*breeding* Exposed to DANA Mr Westway 76G from March 25 to May 16, 2021, then exposed to TY-D Superior 4H from May 16 to June 1, 2021. Observed bred on May 5, 2021. Ultrasound implies safe to May 4 breeding. consigned by Peacock Prairie Simmental

# Laurel

Sired by KOP Sparton and out of Revolution cow is one of the best combinations you may ever have. This cow has great conformation and a beautiful udder, she has raised class winners in Regina.

*Breeding* Exposed to DANA Mr Westway 76G from March 25 to May 16, 2021, then exposed to Ty-D's Superior 4H from May 16 to June 1, 2021. Observed bred on April 8 to Westy. This breeding should give you an outstanding bull or heifer.

SVS Miss Destiny 779E

## Destiny

779E is a great young cow, she is thick, deep bodied with a great udder and feet. There are not a lot of these North Face cows around. This cow also has a power packed pedigree. Everyone will like this young cow.

*breeding* Exposed to DANA Mr Westway 76G from March 25 to August 7, 2021. Observed bred on April 16 and May 4, 2021. Ultrasound implies safe to May 4 breeding.

*Terms and Conditions*

**TERMS & CONDITIONS** The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. First Class Cattle Marketing reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, First Class Cattle Marketing reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, First Class Cattle Marketing and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

**EXCHANGE** Foreign exchange rates will be announced at the beginning of the sale.

**BID** Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

**DISPUTES** In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASERS RISK** Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY** The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

**SHIPPING** Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

**GUARANTEE** All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

**HEALTH** It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. First Class Cattle Marketing assumes no responsibility for the health status of any animal in the sale.

**ACCIDENTS** Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

**First Class Cattle Marketing IS AGENT ONLY** It is clearly understood that First Class Cattle Marketing acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. First Class Cattle Marketing does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. First Class Cattle Marketing Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.
