the gangs all back in town

welcome to the sale

from the Canadian Red Angus Promotional Society

Constant, Consistent, and Predictable... that has been the trademark of Red Round-Up! Good people, great cattle, and an opportunity to visit with both young and "experienced" breeders from across Canada, the legacy and foundation that's led to this 47th edition of Red Round-Up show and sale.

If you want to experience excitement and enthusiasm, look no further than the 4th annual heifer calf Extravaganza, it allows a Junior aged livestock enthusiasts to actively pursue close to \$40,000 of sale credits, by selecting and exhibiting the females that are in the sale, it results in a unique participation based Jr. show.

New this year, and as we gear up for the Canadian Red Round-up 50th Anniversary in 2022, is the \$100,000 Canadian Red Round-up Futurity. The adventure of the Futurity starts at this year's sale, so we encourage all members to promote to all youth, and to come out and participate in the Female Futurity and Extravaganza. The excitement and buzz around these events, has increased our consignors' list, with many new and past exhibitors joining the lineup this years' sale.

An activity you don't want to miss is the Friday night Fundraiser and Banquet, at our new location in the Pomery Inn and Suites. The event is a great chance to visit and participate in the Red Angus Society. The funds raised go towards Promotion of the Red Angus breed and help the Society support activities like the 4-H awards, Red Angus Tour, and show activities throughout the year.

Lets keep the enthusiasm going!! If there are questions or for information, please do not hesitate to contact myself, any of the directors of CRAPS, or go to the website.

welcome

from **FIRST CLASS CATTLE MARKETING**

Welcome to the 47th Annual Canadian Red Roundup Show & Sale. It is with great pleasure that we are once again given the opportunity by the Canadian Red Angus Promotion Society to work alongside them and Mackenzie Sales Management on this truly great event that has stood the test of time. There are some exciting new changes and additions coming to Red Roundup over the next four years in preparation for the 50th anniversary of the event. One of the most notable additions is the 50th Anniversary \$100,000 Junior Futurity which will begin its first leg immediately following this year's sale. Details on this new event can be found inside the catalogue or feel free to contact any of the sales staff or CRAPS board members. We will also be continuing with the very well received Junior Heifer Calf Extravaganza on Friday and the Red Roundup Bull Futurity on Saturday morning before the Sale. One other exciting change is that we will be moving the Annual Banquet to Pomeroy Hotel on Friday night. This will feature the CRAPS Fundraiser Auction as well as the "Frozen" section of the Red Roundup Sale.

This year's sale offering is nothing short of magnificent. It is compiled of cattle right off the top of the very best Red Angus herds across Canada as well as frozen genetic opportunities from some of the breed leading herds in the United States. Included in the offering will be some of the

very best Red Angus donor cows, bred heifers, open heifer calves and frozen genetic opportunities that you will find offered for sale anywhere in the world. Please study the catalogue in detail and bid and buy with confidence and the opportunities of this sale offering are endless.

Please plan on joining us on October 18 and 19 for the entire Red Roundup weekend. If for any reason you are unable to attend the sale do not hesitate to give anyone of the First Class team a call as we will all be very familiar with the offering and will be more than happy to assist you in purchasing your next Red Angus female or frozen genetic opportunity. DLMS will also be on site if internet bidding is what you prefer. I hope everyone has a great fall and I hope to see you all in Olds, AB for the 47th Annual Red Roundup Show & Sale. An event that is truly envied by the entire Livestock industry across the globe.

welcome

from **BRYAN & SHERRY MACKENZIE**

Welcome to the 47th edition of the premiere Red Angus event in the world!!

Everyone all over the world can identify with a square on the calendar that they define as their favorite time of the year.

That particular day that they anticipate with a lot of emotion...it may be a birthday, anniversary or even Thanksgiving...for kids how about the last day of school!!

Many will say Christmas is the day that creates the most memories or joy for them. I can honestly admit that the one day that I anticipate, plan for, long for, can't hardly wait for is the 3rd weekend in October...

A moment in the whole long year...the day Red Angus folks know and love as Red Roundup. There are just some dates that we all automatically know such as: Christmas is December 25, Canada Day is July 1, the USA Independence Day is July 4, and Remembrance Day is always November 11. Well Red Round up is exactly like that...always the 3rd weekend of October.

Some of my best memories and life changing moments have happened at Red Roundup. One of those moments was when I was given the opportunity to purchase (actually bid on myself), my very first Red Angus female at the 6th Annual Red Round Up in 1978. I will always cherish that moment, sitting in the stands in Calgary at the Stampede grounds under the very watchful eye of my dad. I will forever remember his words as well "OK son, go ahead and bid on her". I was 10 years old and that moment forever changed my life. I have often wondered how that made the blockman/ Red Round Up selector feel... Mr. Jim Leachman. I have been fortunate enough on the block to see this firsthand, how that feels, especially these last few years, with the increased junior participation through the Extravaganza. Watching the fathers and mothers of this next generation of Red Angus breeders sitting with their kids and bidding on what I'm sure would be some of their first purchases too. You talk about button bursting moments all around. Thanks Dad, for your dedication and belief in the Red Angus business at that time, if it wasn't for you and mom going to this Sale, I wouldn't be in the position I am today.

This year our theme for Red Round Up is the "gangs all back in town". When I got a look at the nomination list back in June. I couldn't have been happier, with the response, from our Promotion Society Members, wanting to be involved with this much heralded event. We are heading into our 50th Anniversary event in 4-years' time, and the strength in leadership we are displaying is magnificent. I couldn't be any prouder of my fellow Red Angus breeders because the whole gang, once again, is pulling the rope in the same direction. Thanks to each and every one of our consignors for allowing me the slack to go into their respective programs on the Red Round Up open herd policy. That is one of the many reasons why Red Round Up has become an institution in itself, in our cattle industry.

I know there is a lot of anticipation, optimism and enthusiasm for the up-coming \$100 000 Futurity we are planning at the 50th in 2022! Elsewhere in this book, is an overview of the up-coming festivities and listing of our sponsors that are with us for the next 4 years!

There will be a lot of emphasis on the world famous "heifer calf bed" on

October 18/19 in Olds. I'm here to tell you though, as good as those heifer calves are for the 47th sale...just wait till you see the breds and cows we have gathered up for your appraisal too. UNREAL! There are a lot of moving parts to Red Round Up now, so I encourage you all to come and see for yourself the wonderful display that sales management, our sponsors, and your Board of Directors for CRAPS have awaiting your arrival. From the moment you arrive on Friday to the conclusion of the first leg of the \$100 000 Futurity Show on Saturday night, it will be jammed packed of moments for you to remember for all time. Keeping in mind, that participation is key for the junior members, leading up to the 50th Anniversary event. The more participation they have starting with a heifer calf purchase this year, the greater the odds of being front and center on that amazing stage of the 'Golden' night in 2022.

Congratulations to Darnell, with the formation of his First-Class Cattle Marketing Company, on taking over the reins of Red Round Up. Sherry and I are very happy to be working with his company and can assure you we are still in very good hands with this young man in charge. Lastly, but certainly not least, I would be very remiss in not thanking a very good friend of mine for all his service to Red Round Up over the last few years. Brian, it's been an honor to have the opportunity to work alongside you (and Chad!!) of Bouchard Livestock International. You have enabled me to create several more valuable and cherished memories in addition to all my other ones. I got to say for a guy from primarily another breed of cows, you displayed remarkable and admirable dedication to this thing all us Red Guys call Red Round Up. THANK YOU!

On behalf of Darnell, the very talented sale staff we have assembled, Sherry and myself, we invite you to please join us on October 18th and 19th for the 47th Annual Canadian Red Roundup Sale. I am willing to bet that I am not the only one who can hardly wait to get there and create some more lifelong memories.

Yours Faithfully,

Bryan and Sherry Mackenzie

Terms and Conditions

TERMS & CONDITIONS The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. First Class Cattle Marketing reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase, First Class Cattle Marketing reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale, together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. The owners, First Class Cattle Marketing and sale staff have the right to refuse bids from anyone who has a previous record of default in payment and/or who has not made prior credit arrangements prior to the sale with the owners and/or Sale Management.

EXCHANGE Foreign exchange rates will be announced at the beginning of the sale.

BID Every animal consigned to the sale must be sold by auction. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY The proper Registration of Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after settlement has been made.

SHIPPING Assistance will be given in making shipment after the sale, but Sale Management or Seller assumes no risk. Expenses incurred are the responsibility

of the purchaser. Purchasers are requested to furnish shipping instruction when making settlement.

GUARANTEE All animals will carry standard breeding guarantee as specified by the applicable Canadian breed Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to applicable Canadian breed Association guarantee, but no guarantee is given that semen from any bull will freeze.

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. First Class Cattle Marketing assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sale Management, auctioneer, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and the terms and conditions of this sale do not cover obligations of the two parties connected thereto.

FIRST CLASS CATTLE MARKETING IS AGENT ONLY It is clearly understood that First Class Cattle Marketing acts only as agent between buyer and seller and is not in any way responsible for any failure by either party to live up to his or her obligations. First Class Cattle Marketing does not assume any financial obligations to collect or enforce collection of monies by either parties, and in exceptional case, any legal action will be between buyer and seller. First Class Cattle Marketing Ltd has no ownership of the facility and assumes no responsibility for the operation of said facility.

Stettler Auction Market, Stettler, Alberta

Selling

- 140 Cows
- 50 Second Calvers
- 60 Bred Heifers
- 120 Heifer Calves
- 95 Bull Calves

The energy in the air at Red Round up has always been exciting for us. Reconnecting with old friends and meeting new ones as they start their adventure's.

We have been blessed with our Red Angus cows and have had 15 years of successful bull sales.

We have only sold a very small select number of females over the years always trying to keep and expand our program. We really hope the Red Roundup breeder's and friends come share in our final chapter of this great adventure.

Nothing would make me prouder if our Red Roundup family would shoot for the stars with our breeding program.

\$100,000 Junior Heifer Futurity

FIRST LEG

Futurity will take place Saturday immediately after the 2019 sale with heifer calves purchased in 2019 sale

SECOND LEG

Will take place Sunday 2020 with heifer calves purchased from 2020 sale as well as the calves from the 2019 leg invited back as bred heifers

THIRD LEG

Will take place Sunday 2021 with heifer calves purchased from 2021 sale as well as calves and bred heifers from the second leg invited back as bred heifers and two year old pairs

FOURTH LEG

Will take place Friday 2022 with calves, bred heifers and two year olds from the third leg invited back as bred heifers, two year old pairs and three year old pairs

FUTURITY RULES

- Juniors must be 21 years old or younger at time of sale date when they purchase their entries
- Juniors must be capable of showing their entries with limited assistance from another junior age member
- Money will be paid to the top 10 females after the four legs of futurity
- Points will be awarded each year, point totals will be calculated and tallied by a third party system. Nobody involved will know how many points each female has after each year.
- Judges for each year will be kept in confidence until show day
- All calves at side of each pair must be registered and parent verified
- Bred heifers and two year olds must carry a pregnancy check letter from a veterinarian
- Three year old pairs can be shown open and ready to flush
- We understand that a lot can happen from calving time until show day, therefore a low point class of cows without calves will be available if anyone chooses to enter
- Females do not have to be shown each year but entry fees must be paid for every year in full for them to continue in upcoming years

ENTRY FEES ARE AS FOLLOWS:

- Calves: \$50
 - Bred heifers: \$75
 - Two year olds: \$125
 - Three year olds: \$150
- Therefore for a female to show as a three year old in 2022, \$400 in entry fees must be paid regardless of how many years actually shown
- All top 10 females must sell in the 2022 Red Roundup Sale, standard sale commissions will be charged

PAYOUTS FOR TOP 10 FEMALES ARE AS FOLLOWS:

- 1st: \$20,000
- 2nd: \$15,000
- 3rd: \$13,000
- 4th: \$10,000
- 5th: \$9,000
- 6th: \$8,000
- 7th: \$7,500
- 8th: \$6,500
- 9th: \$6,000
- 10th: \$5,000

- Payouts will be made in cash, not sale credits
- Top 10 placings will be announced Friday night in 2022 at the banquet
- A calcutta will take place at banquet in 2022 before top 10 placings are announced

Donation Heifer Auction Procedure

- The final bid in each round will denote the amount of that bidder's donation. Example:
 Round 1: Final Bid is \$300 to John Doe. John's donation is \$300
 Round 2: Final bid is \$250 to Tom Jones. Tom's Donation is \$250
 Round 3: The female is re-auctioned until no further bids are received at the low of \$10
- Each \$10 purchased (donated) represents one chance in the final draw, e.g. John Doe has 30 chances, Tom Jones has 25 chances and so on down the scale to the final \$10 donation worth one chance each.
- One ticket for every \$10, bearing the contributor's name will be put into the draw barrel.
- At the end of the sale, one ticket will be drawn with that person winning the heifer.

We are very honored to be bringing you the donation heifer this year. We really wanted to choose one that not only represents our program well, but one that the entire Red Angus breed can look at and say "now that's a nice heifer" This will be one of the first Red SVR Continental 112E daughters out this fall, and she goes back to a great working Red Bieber Rollin Deep 118Y female. Good Luck in the draw.

WJD 510G - 2019 Bull Calf

SELLING ONE-HALF INTEREST WITH THE OPTION TO DOUBLE TO ACQUIRE FULL OWNERSHIP

Once in a while a rare opportunity arises that you can't help but take advantage of. A chance to buy into Red Wilbar Helga 211E is one of those times. Not often do you get to purchase a female of this calibre outside of a dispersal sale. Well, here's your chance!

Red Wilbar Helga 211E is one of the most powerful females red or black to come out of our program in nearly 60 years of raising registered Angus cattle. Bold statement you might say? See for yourself, we think you'll agree when you see her and her cool bull calf at side in Olds. She has a ton of mass and volume while maintaining a fresh and feminine front end. Combine that with her udder design to create a phenotypically superior cow built to produce & last. Based on her March 16 bull calf, Helga has already proven herself as an efficient, productive female that has earned a spot in a donor pen.

We look forward to partnering with another progressive breeder on this special female. Or you can double up and own all of her (we reserve the right to a successful flush of at least 6 implantable embryos if you choose this).

Helga & her calf, Red Wilbar Inspiration 510G are entered at Manitoba AgEx, Lloydminster Stockade Roundup and Agribition (Red Angus Show & First Lady Futurity).

AI bred to Red NCJ Coming In Hot 24E on May 18, 2019. Exposed to Red Wilbar Escobar 251E from May 19 to June 30, 2019.

Consigned by Wilbar Cattle Co.

75	-	-	3.1	32	52	30	46	-5.0	3.0

Here she is! Four years after her debut at the 43rd Annual Red Roundup, as a bred heifer, this brood matron is coming to Olds on October 17 - 19th. Faith is the type of brood matron to build a cowherd around. Her supreme volume and front pasture appearance is the kind that is admired immediately during pasture tours. Cattle with this rib capacity, strong pinset and skeletal dimension rarely have this gorgeous of a front end. She maintains a strong, sturdy base and bone structure, while she gets out with tremendous fluid movement. Faith also exhibits a respectable EPD profile with a significant maternal prowess. Faith has proven her fertility through her abundant flushes and ability to rebreed in a short time frame. Booth her heifer and bull calves have been standouts in the pen each year. Her daughters have been easy to work with and have raised strong calves. You will want to be in Olds to have the chance to enhance the value of your herd.

Pasture Exposed to Red Lazy MC Parker 400E May 1, 2019 to June 1, 2019, confirmed Pregnant.

Red ACC Tibbie 94C

ACC Chisum 120E - Service Sire

We left the gate wide open for Bryan when he came selecting for Red Round Up and we let him pick right from the top end of our herd. Red ACC Tibbie 94C raised a awesome bull calf last year that was in our sale. We have flushed this female's dam and one sister successfully. She carries a service to ACC Chisum 120E who is our newest red carrier herd bull. We used him on a select group of females hoping to raise that next great out cross red herdsire. **If this female has a red bull calf we would like to collect 100 straws of semen for in herd use.**

This Assassin heifer calf can be competitive in any show ring and has a maternal power to crack out a sale feature bull calf. Tonnes of extension through the front end and lots of shape from here rib through to her quarter. If you need any further reason to purchase this heifer then just check out her power house dam Red ACC Tibbie 94C.

Consigned by Anderson Cattle Co.

Red Cockburn Abigail 8003

Red SVR Continental 112E - Service Sire

8003F is an extremely exciting bred heifer. The striking profile, depth of body and extension through her front make her hard to miss. Sired by Specialist which makes her a paternal sib to Assassin. She was a class winner in Denver 2019 and as Cody's 4-H project she was Champion heifer at the Moose Jaw Regional and was recently the Reserve Champion Angus heifer at the Young Ranchmans all breeds show in swift current.

Continental was Junior Bull Calf Champion at Agribition and Reserve Spring Bull Calf at the National Western Stock Show. His first calf crop looks phenomenal! Adding to the value of this service is the fact that we lost Continental this past breeding season.

3 years! Bryan has been after this cow that long. Each year he has come to select and each year he has been trying to get his cow BACK to the Mighty Red Roundup. Purchased from EKW as a yearling at roundup 2014. Every year she has not disappointed. We have never had the opportunity to breed her with a walking sire as EVERY year she has caught on AI. 4A is a femine powerhouse with ample muscle expression, spring of rib, extra length which is passed each year onto her calves. Each of her offspring have been retained in herd with the exception of the two offered as choice today. She may not be the fanciest, the most showy cow in the pasture, however, her consistency, fertility, stay ability, predictability will be one of the best investments you will make today. Take a look at her calf at side on offer. THAT is what's wrapped in this powerhouse. Full Sib to 907G!

AI bred to RED COCKBURN ASSASSIN 624D on on March 26, 2019 for January 2 calving. Exposed to Red DSM Razor 814F from April 10 to May 25, 2019. Preg Checked safe to Assassin.

If 4A is chosen DERSTA Farm will be retaining 3 embryos from each flush.

Her Dam was purchased at Red Roundup 2014, Her Sires semen, Red Lonestone Moonshine 129B, was purchased at Red Roundup 2015. To say this heifer was destined to return to roundup is an understatement. Looking at 815F you have to appreciate her length, and how much power and potential this heifer has. The long back, spring of rib all passed down from her Dam EKW 4A. Red Lonestone Moonshine 129B had so much potential with Daughters laying down amazingly square udders and great foot structure. You want a female that's going to consistently lay down and give you bulls you will be proud of selling and females that will continuously make you money look no further.

Exposed to Red U2 Rendition 56F, a \$30K bull, from March 25 to April 22, 2019. Exposed to Red DSM Razor 814F from April 23 to May 26, 2019. Ultrasound 80-90 days pregnant on July 9. We will pay for DNA on resulting calf.

Juniors if your looking to start a herd, Look at the 2 others in the ring with this calf, this is what your going to get. Consistency and Predictability is what this Eugenie cow family gives. This calf is nothing less than performance. Stacked with names like, ASSASSIN (whom needs no introduction) Red Pie Specialist, Lazy MC Hustle, the famed Cora cow family on the top side. With Red Wheel Alliance, Cross Fire, Headliner, Make my Day all on the Bottom. The Docility of this Cow family is second to none and passed on down the line. She is entered into the Fall shows, and would like to exhibit her through out the fall Show run.

Cow Family History The Envious cow family traces back to our start in the Red Angus breed. We purchased the 19U cow picture here in the Moose Creek Production Sale for \$925.00 in the mid-80s. We have sold embryos to Argentina on the 19U cow and to this day she has 35 direct progeny registered out of her. The 282Y's dam shown in the picture at Prince Albert Fair was shown two years very successful as a pair and had a flush sold on her at the Angus Pride Sale in which she produced 19 number one embryos for Doug Noad. She was a direct Rab Star daughter in which we had an extreme amount of success with him in the show ring and breeding field and later going on to be sold to Australia for \$75,000.00. She herself has 23 direct progeny. The 282Y cow always makes lots of friends with visitors to the farm. She is a dark red female with a solid foot and incredible udder and has the look of her mother and grandmother who we have built a cow herd around. She has 24 progeny already registered out of her and we have another 11 coming in the spring. We have flushed her twice and two springs ago she produced 19 number one embryos and bred back again and this spring she produced 21 number one embryos and rebred back again for next spring. Her sire is Bold Edition, who we sold in our 2008 bull sale to Genex and who was a supreme top ten finalist in 2009 at Agribition.

We are very proud to bringing another great pair of females out of our 282Y cow. When Bryan came out for a visit this summer he had to have another female out of this cow and we know the calibre of cattle this sale brings to town so we agreed to let one of these females go. Their dam is an incredibly fertile female who we have flushed three times and averaged 20 embryos each flush and now has 24 progeny registered. We are offering choice out of the bred female or the calf for the new buyer to start a new chapter in their program.

Red BCC Gator 18E - Service Sire

Letting go of some is like getting a tooth pulled! This heifer has been stellar since day one. That was the day Wynton knew this would be his show heifer. She is the 2019 Synergy Jackpot Reserve Senior Champion Heifer as well as the Synergy Grand Champion Red Angus Heifer.

Sired by the many times Champion, Hot Shot 10B, who was a two time Angus "All Star" and the 2016 Show Bull of the Year. His dam being the revered Red K Adams Zaria 091Z who was twice National Champion Female as well as the 2015 Farmfair Supreme Champion Female.

44F is from a tremendously deep, broody 12 year old New Trend daughter. She is the poster girl for Brandl Cattle Co. when it comes to easy fleshing, volume, production and fertility. She has raised several sons that have sold in the \$8,000 – \$10,000 range. A maternal sister to 44F raised the High selling Red Angus bull in the 2018 Brandl Bull Sale at \$12,000 to Arturo Martinez.

The 683H Grand Dam was purchased through the 2006 Tradition With A Vision Sale. She raised a son Red Brylor Panama 69P who left a tremendous set of daughters at Ter-ron Farms.

This show heifer and future brood cow/donor prospect sells bred for a January 15, 2020 calf sired by the outcross calving ease and performance bull Red BCC Gator 18E.

Exposed to Red BCC Gator 18E from April 1 to May 25, 2019. Observed bred on April 8. Confirmed Safe to that date.

When you come back to the most important Red Angus Sale in the country, probably the World, you better bring one that catches some attention. Brian said if we wanted to make an impact, get this heifer to Red Deer. So here is a bred heifer that cut quite a swath this summer and checks off a multitude of boxes. She is big bodied, structurally right, good footed, nice fronted, and really hairy.

The Sybil Cow Family has been a mainstay at Towaw with the matriarch being Towaw Sybil 60N born in 1981. Sybil 407F traces back to some of Towaw's best maternal herdsires including Digger, Indeed, and Zama Pine 37S.

Being a direct daughter of Power Eye is kind of a big deal too! The Power Eye daughter of Yoder's from this very sale won everything worth winning last fall, and looks great for Brylor/Cinder again this year.

Bred and Owned Grand Champion Female at both the CJA National Showdown and Alberta Junior Angus Shows this summer.

Reese would like to retain show rights through Farmfair 2019, and one future flush.

Hand bred to Red Towaw Zeppelin 466F on June 26, 2019. Preg checked safe to this date.

Annie 73F has been either #1 or #2 pick of all who have been through the bred heifers this year. Her roots go back to Red MEM Annie and Black MEM Icecap Annie. She is not the kind of heifer anyone would want to part with especially since this is the first female her dam 801U has given me to replace her with. I would definitely like to keep her home but I also wanted to display one of our best at Red Round Up 2019 so here she is. 801U has done a great job on her Big Shot 118E son this year so I may just have to use him instead! Annie 73F is sired by Compass 41B (co-owned with Neilson Land & Cattle) a maternal brother to Final Deal 78Z (co-owned with Brylor and Twin Heritage). These maternal brothers were used to quickly incorporate the very desirable genetics of their beautiful black red carrier Final Answer dam JYL Princess 4W into our herd. Both have done a fine job here. Annie 73F was the first heifer in the AI pen to show heat and was AI on a natural heat to Tommy Jack on May 12/19. There will be very few bred heifers for sale this fall carrying service to Tommy Jack. I vividly recall following Tommy Jack 166A to tie out more than once in Fort Worth and I look forward to his progeny. Preg check August 15 to be 90 days along and highly probable to the AI mating. The MooCall Collar did not detect any further heats. Heat patch also indicated no other heats.

AI bred to Red TWG Tommy Jack 166A on May 12, 2019. Pasture exposed to Red NRA Tommy Jack 122F from May 16 to August 14, 2019.

Mar Mac Firststep 93F - Service Sire

With Assassin's popularity and a proven mother cow we felt Red Roundup was the event to market 137F. Mar Mac Farms likes to bring out females that we feel will work in the purebred and commercial industry to give you an idea of what our programs is all about. Here is a moderate framed, thick made, feminine female that may not be the biggest heifer but she is only a MARCH 2. We purchased 99A at the Brylor Female sale and boy what a job she is doing. We have incorporated her into our donor program and watch for her embryos in this sale. If we did not have the mother this female would not be for sale. This is a young female with mother cow written all over her. Firststep was one of the high selling bulls in our 2019 Bull sale selling to Gordon Resources. Sired by Ripzone 89D who has left a phenomenal set of bulls and females. Firststep's dam was the high selling female in the Sunset Ridge Dispersal and has done an excellent job at Mar Mac and heads into our ET program.

Red Fraser Lasa 812F

MRLA Resource 23F - Service Sire

812F is an outstanding daughter of our Roughrider son that has been used in our herd for several years. His dam was the popular Countess 18M cow that produced many greats. The Lasa 5X cow came from Brylor as a bred heifer and hasn't missed a step. This female has length and muscle from the roughrider lineage and maternal greatness from the New Trend. But possibly the more intriguing part is her early service to an SAV Resource son that was a feature at the McMillan Ranching Sale this past spring!

Red Shiloh Freaking Fine 37F

Once again, one of our outstanding daughters out of Red ML Hustler 272Z, has been chosen for the prestigious Canadian Red Roundup Sale. Freaking Fine 37F is an extremely powerful young female. She is as sound, deep and wide topped as they come. Her sire, Red ML Hustler 272Z, has provided us with 3 CAA National Champions as well as our 2016, 2017 & 2018 High selling bulls in our Trendsetter Bull Sale. She has been bred to Red Shiloh Enterprise 78E. Enterprise has exceptional calving ease and performance that he has acquired from both his Dam and Sire. We are very excited with how his 2019 offspring are performing to date, including Red Shiloh Guilty Pleasure 48G. Watch for her in our show string this fall. Freaking Fine 37F is bound to be a powerhouse, performance female, producing offspring that are sure to excel to the forefront of your breeding program.

Red MF D14 Paris 14F

Paris 14F is a soft made, deep sided, easy keeping and very sound yet expresses herself in a feminine broody kind of way. She excels in her epds being in the Top 1% of the breed in WW, YW, MM and TM. Sired by Checkmate 14D who has layers of our strongest cow families and resulted in exceptional performance and balanced numbers. His progeny had outstanding average weaning index of 108 on his 12 calves, leading him to be a trait leader in all the Performance and Milk numbers. The dam Paris Hilton 1T traces back to the Jewel and Miss Pathy cow families from Stewart Cattle Co. 1T has proven to be a maternal workhorse, which shouldn't surprise anyone when she is sired by Lazy MC Smash, a proven leader for Milk, she has never disappointed us in her production and presence. Her service to Red Wilbar Speed 8D our proven calving ease sire (BW -2.6) will result in active growth and production.

Red McGowan Mabel 66F

Red Ter-Ron Duke 44Y - Sire

This Mabel cow family originated from the purchases from That'll Do Ranch. Mabel is very maternal and goes back to the great sire Indeed 104H. 66F is a moderate female that is very sound in her structure and has a good degree of hair. She very clean and eye appealing through the front end and has great length of body. 66F sire Red Ter-Ron Duke has not disappointed and has left some great females in the herd. She will make a great female addition to ones herd.

KJHT Power Take Off- Service Sire

This female offers a timeless pedigree with her sire being Fritz Justice 8013. This AI bred heifer is stout made, bold ribbed and very maternal in her design. We can't help but admire the quality and potential that this young female has to offer, she will be one of your elite cows. Her dam, Red MKNZIE Chero 66B, comes from a great blood line that has been in the Mackenzie's herd for over 50 years, as she is a top-quality female. Red Gomack Chero 1F is AI bred to KJHT Power Take Off, which will be a powerful combination that you will not want to miss!

Red Diamond T Blackbird 1893

This dark cherry red, maternally oriented female will certainly grab your attention sale weekend for being ultra sound footed, moderate statured and extremely practical in her design. Sweet fronted in her head and neck while carrying ample rib shape, Blackbird 1893 has lineage that makes her royally bred. Her dam is none other than the \$25,000 high selling OLE Oscar daughter to Golden Sunset, Kyle & Sarah Martin a few years ago that had all the breeders pushing each other to get a piece. Now, her sire is none other than Red Six-Mile Game Face 164Y who raises gorgeous uddered, big bodied females that make front pasture cows. Combine all these elite attributes with Blackbird 1893 carrying the service to the exciting Red W Sunrise Authentic 104F and you have an opportunity that will be a sure bet.

 Preg check for mid January.

Consigned by Dwajo Angus

Red Dwajo Leah 60F

A real nice bred that is hard to let go, she is easy fleshing, tons of volume and a great disposition to go with it. Leah 60F is the top 15% for Weaning Weight and 20% for Yearling Weight EPDs. Her dam has produced a bull to Bleak Lake Farms and a female to Joe Dobson with two females retained in herd. 60F is starting to lay down a udder like her dam which is picture perfect.

The sire Stronghold we bought from the good people at Silver Spur Ranch, we bought him out of the stall at Denver where he was the lead off bull for their Reserve Champion pen of three. He has left us with some nice moderate framed uddered females.

Bred to Red KBJ Deep 906D, who was one of the high selling bull calves at KBJ dispersal sale.

Red Dwajo Leah 26A - Dam

Red Goad C.C. Miss Pathy 191'18

Miss Pathy has been a heifer that has caught many eyes with her deep body and angularity. We purchased her grand dam 6A with Corona Creek Cattle Co from Clint Kuntz as a high selling heifer through his annual bull sale. We fell in love with 6A for her body shape and udder, that when Clint dispersed his cows the 25Y cow was one that was on our list to own, she's still producing in our herd. Previous daughters of 25Y have been a part of Red Round Up selling to Peter Estabrooks and Quinn Pedersen. We are looking forward to our Reality daughters coming into production. They are developing nice udders, spring of rib, solid feet, and maintained in an attractive package. As an added bonus she's carrying service to the many time champion PTO with a bull calf.

Red KF Miss Pathy 6A - Grand Dam

KJHT Power Take Off - Service Sire

Consigned by Goad Family Angus and On The Mark Cattle Co.

Red Goad OTM Babe 165'18

The Babe cow family has been no stranger to Red Round Up, Babe 46X sold half interest through this very sale with whom we were fortunate to be able to partner up with Mark Chriss, on this superb Squall daughter. 165F is no prom queen, she's the girl that all the boys can't take their eyes off of because of her curves. She's not for the faint of heart. She's going to be the kind that raises calves with extra capacity and performance. WW in the top 1%. of breed and YW in the top 8%. Shocker was a bull that we added to our walking sires when we see the capacity that he had and could add to his progeny, with the added bonus he was alongside his dam to be declared Supreme Champion at Farmfair.

Red KF Babe 46X - Dam

Red Ter-Ron Shocker 10C - Sire

Red ELF 100 Gidget 826F

Gidget 826F is from the second calf crop from our 100C bull which is out of Game Face. We calved out the first crop of 100C daughters this year and we are thoroughly impressed with their milking ability, their shape and complete mothering ability. That all comes from the lineup of cows in her pedigree starting with Six Mile 35W, then the great Savannah 11S (Real Deal's mom), New Trend daughter 234Z and also 80P, a Mumbo daughter. I had the honor of using Real Deal for a short time thanks to Keith Adams. He left a great set of daughters. 826F may not be in the show barn but I'm sure she will be in the front pasture next year. She is exposed to my pick of the bulls from Lauron Red Angus, 80F a Block Buster son and out of the Red Lauron Blackbird cow family.

Consigned by Lauron Red Angus

Red Lauron Lassie 65F

Red Lauron Lassie 21W - Dam

This cow family has produced some dandies with fantastic eye appeal as does 65F, super long, good footed with feminine attributes, she has all the potential for a brood cow that will pass on these favorable traits. Her dam displays superb udder structure as does a retained maternal sister. 65F's sire "Bert" was a high selling feature to Blades Angus. The service sire is high selling lot Red RSL Moonshine Man 39E selected for calving ease and great numbers, his first progeny have met those expectations.

Red TR Freyja 8159F

We've stacked some of our go-to calving ease sires that have also been proven to leave us some fantastic daughters on top of each other for this special girl. I like to use the phrase "going back to the well" lately, so we were specifically looking for a Red Angus sire that would give us all the qualities that made the Angus female who she is. The mating to Red Towaw Jive 468E is going to add just that to make this an exciting combination. Escalade, Storm, Moonshine, Miss Envious, and a shot of Tiger 5F. Hard to fault this heifer, and she will be in her Thistle Ridge working clothes come sale day.

This is a bred to build a herd of. Goes back to our foundation cow 3H with plenty of greats in the pedigree. Was an easy pick for Bryan. Dark red with tons of potential. Had to bring the best back to Red Roundup.

Right off the top of our herd this Slice daughter is an all-around stand out! Her dam is a full sister to our red round up female in 2015 that sold for \$7600 to Darren Hannis, and also her maternal brother was our 2019 high selling bull selling to Blakes Red Angus. Females with this kind of production and proven genetics behind them with the sheer muscle, shape and color sure don't come along every day. A heifer we are very proud to consign to Red Round Up.

Red Rack Rosette 15F

Bryan saw this heifer and was an easy pick for him. This heifer's grand dam was purchased from Get A Long and she has always impressed us with her calves. She goes back to a cow family that has always produced and stood out. She is clean through her shoulders and carries nice depth with a wide top line. She has an easy temperament with attractive cherry red color. Her sire, Towaw Kashmir, has left us with lots of growth all while an even structure sound calves. She is bred to Red ACC Big Shot 118E and we believe this will be an exciting genetic package. Big Shot walked our pasture this spring breeding season. We can't wait to see the calves from this sire!

Red Kenray Polly 86F

Red DKF Titanium 116D - Sire

Polly is a heifer that has continued to shine in her development and always impresses visitors during herd tours. Her dam was selected from Red Round-Up as a bred heifer and has proven herself as a real producer. Polly's sire is becoming the flag ship sire at Kenray Ranch leaving a trail of soft made, easy fleshing and eye appealing progeny behind him. Titanium may just become the next living legend of the Red Angus breed. Polly 86F is the perfect example of the quality job of breeding that Titanium has done within our program. The AI service to the proven calving ease specialist Final Deal 78Z will only prove to be a solid mating full of proven & outcross genetics. Don't miss this opportunity to invest in one of our best.

Red Redline Abigail 23F

Red Redline Abigail 23E - Maternal Sister

23F is a bred heifer that we had full intentions of keeping. She is heavy muscled, and solid footed. Her sire; Parker, has been an ideal AI sire for us, putting bull after bull into the sale pen. Her mother has been one of our top female producers over the years, and has proven longevity and performance. A maternal sister sold in last year's Red Roundup sale to Selte Cattle Co. We anticipate her service to Harvester 103C to produce a highly marketable calf, with a great spread from birth to weaning and through to yearling.

Red LS Cattle Miss Rosie 1F

- Deep powerful heifer that gets out on the move well.
- Wide topped and a feminine showy look, also an easy fleshing female.
- Backed by a fancy bull and a great cow that has a perfect bag.
- The mother cow is an easy keeper that always gets bred first cycle. She is also a great mother cow and puts everything back into the calf

Red Circle G Copper Lady 878F

Ter-Ron Continental 120D - Sire

If you like cattle with added substance, eye appeal and internal dimension, you don't want to miss out here. 878F is an impressive daughter of the high seller from the 2017 Ter-Ron Bull Sale, Ter-Ron Continental 120D. 120D is a powerful, super footed son of SAV International that visitors rave about and his dam is one of the Adam's top cows. She also produced the sale topping Bazinga bull. Continental's first sons caused quite a stir at the 2019 Circle G Bull Sale with one topping it at \$15,000...they will be sale features again in the 2020 sale. The Copper Lady cow family is one of the best at Circle G. The dam of 878F is a model female and is highly productive. Her first calf topped the Red Angus section of the 2018 Circle G bull sale and a maternal sister was very popular at the 2018 Pinnacle Sale and sold to Ter-Ron Farms. 878F combines power, structural soundness, depth of body, rib softness and elegance with a truly unique pedigree. She is the type and kind that will produce at a high level. Her future is bright...be part of it!

Red Blake's Ms Advance 44F

A very complete dark colored attractive heifer. She caught our eye all winter long and caught Bryan's eye as soon as we drove in the pasture. Same cow family as our 2017 Red Round Up consignment that went to Brylor. Definitely one of our favorites, one we should be keeping, but we want to offer our best. These heifers are bred to the 3rd high selling bull at the Six Mile sale this spring.

Red Blake's Ms Gravity 138F

A stout powerful heifer. Started as a small calf at 54lbs and has exploded ever since. Great grand dam (mulberry daughter) was Shane's popular show cow and has now been designated a "Premiere Dam." She sold in the Mullberry Mayhem sale in 2017 to Gerry Walters in Ontario. A maternal sister to the dam sold at Red Roundup in 2017 to Vikse Family Farm. This is a tremendous cow family to start a new herd with or to add to an existing one!

Canadian Red Round-Up Sale

Junior Heifer Calf Extravaganza

Come to the exciting Junior Red Angus Heifer Calf Calcutta Class at Red Round Up on Friday afternoon in Olds.

Here's how it works...

We will parade the heifer calves for you to evaluate and decide which one you would like to show in a special junior class. All you need to do is bid and buy the right to show one of these Red Angus calendar year beauties!

We will sell the right to show these heifer until we either:

- run out of heifer calves to sell
- run out of junior kids to buy 'em!

So come to Red Round Up early and look at the heifers in the stall. We will start the parade at 1:00 PM and the auction will begin at 1:30 PM. The Junior Red Angus Heifer Calf Extravaganza show will start at 2:00 PM! All you need to bring is your cheque book, your keen eyes and your show stick, we'll provide the rest.

Here's what you can win....

GRAND CHAMPION HEIFER

\$5,000.00 sale credit towards a lot in the 2019 Red Round Up Sale and a framed photo of you, your heifer and your banner

RESERVE GRAND CHAMPION HEIFER

\$4,000.00 sale credit towards a lot in the 2019 Red Round Up Sale and a framed photo of you, your heifer and your banner

THIRD PLACE HEIFER

\$3,000.00 sale credit towards a lot in the 2019 Red Round Up Sale and a framed photo of you, your heifer and your ribbon

FOURTH PLACE HEIFER

Red Six Mile Olivia 328G

Red Six Mile Olivia 950E- Dam

This deep red, March baby is destined to be an outstanding donor female, as she is a carbon copy of her two-year-old dam. We plan to have this pair in our show string this fall. The Olivia cow family is prominent not only in the Six Mile herd, but in the Red Angus breed as well. She is sired by the up and coming outcross, sire – Coming In Hot. Olivia 328G will hold her own as a heifer calf but we think her strongest days are ahead of her as a mother cow. Retaining show rights through Denver

Red NCJ Coming In Hot 24E - Sire

Enid 232G is a daughter of our calving ease, outcross sire, Coming In Hot. The maternal side of this equation is equally as impressive. 232G's two-year-old dam was one of our very favorite "untouchable" bred heifers. She is an easy fleshing, impressive uddered, wedge shaped female who has future donor written all over here. We will be showing a yearling bull this fall from this exact cow family – another testament to the genetic strength behind this heifer. Retaining show rights through Denver

Red Rainbow Larkaba 3G

Larkaba 3G is one of the first daughters of the popular Seneca to sell in Canada. She stems from of our most potent cow families and her second and third maternal dams are donors in our program. 3G has been a standout since birth and is incredibly soft made and attractive looking. Her dam has been a exceptional producer and already has a two year daughter we hold in high regard and her 2018 born son was one of the lead off bulls in our bull sale. For those seeking a moderate framed, easy doing future brood cow; look no further.

Red Rainbow Lady 35G

This is a female that should never be leaving the farm. Her dam is an outcross black red carrier donor for us, in fact, the dam 61Z is the only red/red carrier animal on the maternal side of her pedigree. Aside from the outcross pedigree, 35G is awesome phenotypically. She is big boned, good footed, deep ribbed and good haired. Her sire, Nitro, has knocked it out of the park in his first calf crop and he is the best footed bull to ever walk our pastures. Take her home and let her work for you. Juniors, with the new Roundup futurity, this might be one to tie to for a chance at the big prize in 2022!

Red ELF 139 Essence 908G

This consignment is the first females we have sold in the Red Round Up Sale. When you let Bryan loose on your farm you had better remove anything you don't want him to see. I'm sure he can see through a barn wall to pick the one he wants. He had to beg to get me to sell this heifer as she is the finest we have ever raised. Sired by semen we purchased at the Red Round Up Sale in 2017, Authentic did a super job so we had to buy a few more straws. On the dam sure, 908G's mother is sired by a Real Deal son which was purchased from Keith Adams. The Essence 1Y was purchased as an embryo by Chris Davis from Brylor and Miller Wilson at the World Angus Forum, then bred to Major 341Y, a Real Deal son, to produce 1A. Essence has natural eye appeal, thickness and femininity, a heifer you don't want to pass up. Don't overlook this heifer with such a strong pedigree with show ring potential but more so a great cow.

Red Mar Mac Lady Trooper 17G

Red Mar Mac Lady Trooper 114Z- Dam

A fancy Red Angus heifer calf that has loads of potential ahead of her. She is sired by the Franchise bull that was used to add calving ease to many programs. We are excited about the group of sons he has left at Mar Mac low birth weights but still some grow to them. 17G is out of one of our top Donor females Red Mar Mac Lady Trooper 114Z. Just ask Bryan Mackenzie about Lady Trooper, she is always a favorite. With the performance in Lady Trooper and the calving ease of Franchise this has constructed a female with length of body and super feminine. Think down the road what this sweet female will be like. Check out the Trooper 114Z embryos in this sale. A great way to start a new program with the proven Trooper genetics.

Red PIRO Soapy 904G

Red PIRO Soapy 211Z - Dam

904G is owned by our youngest daughter's 4-H Elite Win-Chester cow. When Bryan picked her we had to do some serious begging to get her approval to bring her to the sale. This heifer calf is out of the same Soapy cow family as the Benelli heifer that placed fourth in last years heifer calf extravaganza at Red Roundup. She's a tremendously balanced, wide loin female that comes with lots of stretch and muscle to her, very correct from head to toe! Her sire Excellent Answer offers great genetic diversity stemming from outcross black pedigree on both sire and dams side of the pedigree.

Red PIRO Susanne 908G

This is another outstanding calf out of our powerhouse 353A Oscar cow! It doesn't matter what this cow is bred to she throws a top pick, broody calf every time. 908G is dark red and thick made with lots of middle, depth, and hip shape to her. We have used New Direction for quite a few years now and are very pleased in what he has to offer. His progeny are dark red and deep quartered, especially on the female side making great replacements. For all you juniors... Take advantage of this heifer calf extravaganza! Your chance of walking away with next to no cost, broke calf for your growing herd or upcoming 4-H project is a sweet deal!

Red PIRO Susanne 353A - Dam

353A Bull Calf

Red Howe Ms Envious 14G

14G is a big powerful stout made calf out of our Envious cow family. We have flushed 14G Grandmother 34W and she now has 14 progeny registered including a herdsire working at Wards Red Angus. We also showed 34W as a two year old where she was Reserve Champion Female at the National Angus Show. This heifer is quite a sweetheart out of a first calf heifer who has completely outdone herself by bringing in this big strapping calf. Her dam is a first calf heifer which Bryan also tried to get out of our Boss bull who has done an incredible job on this calf. These Boss daughters calving out this spring had incredible udders and are very exciting young females in the making. Her sire is a young up and coming bull who has done an incredible job at our place. 14G will certainly catch your attention in Olds on the 19 of October.

Red BCC Mabel 39G

This is the first offspring presented to represent the newest Brandl Cattle Co. herd sire Red Northline GFA Bullion, and she's a good one! All the volume, substance, broodiness and style to be a show contender or a front pasture brood cow. All of the Bullion calves have the nicest disposition that you could possibly want.

Bullion is a direct son from Porsche 16Z, the Farmfair and Agribition Champion Female. He is also a maternal brother to Red Northline GFA Crush 16B who was the 2017 Houston and Fort Worth Grand Champion Bull as well as the Denver Reserve Grand Champion. Bullion is siring moderate birth weight, easy fleshing calves with good bone and incredible structural soundness. The Mabel cow family at Brandl Cattle Co. is known for production and fertility. Stemming from a bred heifer purchase at Brylor Ranch in 2008, Red Brylor Mabel 77T is now a donor cow and a CAA ELITE female with 10 calves at a 105 ratio. At 12 years of age she is still in her prime of production. One of her daughters BCC 46Y is now designated as a CAA PREMIER DAM and is in fact the #2 ranked Total Maternal Premier Dam in Canada. Red BCC Mabel 9C being by the heavily used Semex sire Red Six Mile Grand Slam will follow the same family path having already accumulated a production ratio of 3 calves with a 109 index.

Red Northline GFA Bullion - Sire

Red Camo Gloria 22G

Being a first-time consigner in the Red Roundup I wanted to offer something special, and Gloria 22G is the heifer for that. She has been a neck snapper all year when driving into the pasture and it didn't take Mackenzie long to ask the pedigree and then get gitty about her. Gloria name comes from the St Louis Blues "song" that took them on championship run from last to first to hoist the Stanley Cup. I feel adding a long dark and deep heifer standing on great hooves will have the same affect the "GLORIA" song had on the Blues. Did I mention 22G is sired by the game changer Poker Face 613D and off a WRAZ Soapy I purchased out of Phil's POP sale. Phil will tell you that the Soapy's are one of his favorite cow families. Bring your Poker Face to Olds and take home a herd changing champion heifer.

Red Wilbar Firefly 459G

Firefly 459G is an ultra-attractive, dark red showstopper! She has the credentials to be a front pasture kind of female with the class to be an excellent choice for the showing. Her sire, DKF Razor 55C, is our senior herd bull. Without any doubt he has exceeded all expectations leaving us sale topping bulls and females that are easy to sell but tough to let go! Her dam has been a very consistent producer selling her first 2 bulls through our bull sale, a sister in our replacement pasture and now 459G. 459G's pedigree is filled with outcross sires SAV Eliminator, SAV Net Worth, EXT and Northern Improvement that dominated the black breed. You'll also find some prominent dams on her paper as well with the likes of Red Stewart Pathy 62A and Red Sten Essence 42G. Check out Red Wilbar Firefly 459G, she's super quiet and will have you standing at the right end of the class at the junior show!

Red Ter-Ron Sandy 5G

Red Ter-Ron Sandy 29C- Dam

Sandy 5G is hard to fault. She has cow written all over her. She is the first heifer to sell from our Upload bull who we purchased out of the McMillen bull sale two springs ago. He has done a tremendous job siring both sexes and we feel 5G is one of his best. Outcross genetics on both the top and bottom side make her even more appealing. If you're looking for a junior project or a front pasture cow, this heifer can fit your needs.

Red Ter-Ron Diamond Mist 13G

Diamond Mist 13G will be very popular on sale day. The Diamond Mist cow family continues to rise to the top every year. A 3/4 sister sold to Brackel Ridge Cattle Company in Cincinnati, NY in last year's Red Roundup sale. 13G has that same look... deep ribbed, wide topped, big bodied, wedge shaped heifer that will be a great asset to any herd. The Juggernaut cattle highlighted our spring bull sale. Our top selling female was a Juggernaut that sold to Mexico. These Diamond Mist cattle are hard to part with, so here's your chance to take advantage.

Great cow families are the cornerstone of any program and the Serebl cow family is one of the pillar cow families at WRAZ. Grand dam Serebl 95N was our original Serebl donor followed now by her CAA Premier Dam daughter Serebl 760T. This ET daughter of Serebl 760T will be the very first female offered for sale by Big Shot 118E. He has maintained a great foot and done an admirable job at WRAZ, Brylor and Anderson's. I am impressed by both the male and female progeny here at WRAZ. This female is from a cow family that can get it done!

Red Towaw Lady Belle 418G

Attention Red Roundup Heifer Futurity Enthusiasts: This Indeed daughter might not take the Red Ribbon right now, but she will certainly hunt in year 3 and 4! She is an attractive, future brood cow with a strong maternal pedigree. Red Angus historians will recognize the Lady Belle family tracing back to the Black Red Carrier, Leachman Larkabell 580 cow owned by the Canadian Dynamite Breeders. She was a direct Ankonian Dynamo daughter and was the Grand Champion Female at Agribition in 1975. Her powerful dam was designated ELITE in 2016 with 5 calves at 108 Weaning Index. She was flushed for Monline Angus in Denmark and we are excited to have had this heifer and two full brothers born in March of 2019. She has been a good producer with three daughters retained. A grandson of hers was one of our top Bulls in our 2019 Bull Sale.

Red Blair's Cora 803G

We were very excited to add the Red Cockburn Cora 133Y to our donor pen in the Bred for Success Female Sale last fall. Cora females continue to be breed leaders and a shout out to Ward Cockburn for his success with the entire Cora family. Red Blair's Cora 803G was the in dam purchase and we thought it very fitting to make her a Red Roundup feature. The fact that Red SVR Continental 112E is the sire makes it extra special and we are proud to offer her in a sale with this much prestige. Cora 803G has been a kitten to be around since birth and Jordie Buba would love to tell you about how much she adores this heifer.

Red Blair's Martini 556G

Red Blair's Martini 556G comes out of a very successful flush that was only done once. This is a rare opportunity to get genetics off the now deceased \$40,000 Martini 25W. Martini females continue to prove themselves across North America. Jason Bragg from Texas has a maternal brother that he absolutely loves. Don't miss out on this genetic beauty. She's going to be fun to watch as she develops. Take special note here junior members.

Owned with Kathy Lascala KS.

Red Red Tide Martini 25W - Dam

Red Ringstead Kargo 215U - Sire

Red Wrights 161X Copper 25G

Copper 25G is a heifer with a tremendous future! Copper 25G stems from an ultra productive & fertile cow family that are low maintenance production machines.

25G is a heifer with an extremely attractive look. She is big bellied with more dimension and body, which, the Power Eye cattle are known for. Red Wright's 161X Copper 25G has the maternal predictability to be a very production-oriented female with, the phenotype to be an ultra competitive show heifer.

Red Diamond T Blackbird 1624 - Dam

Red Six Mile High Caliber 177C - Sire

Imagine 4 years from now, the entire Red Angus world is gathered in Olds, AB to witness the 50th anniversary of the most iconic consignment sale in North America. Now, picture the futurity ring that has upwards of 100 head and the accumulative points Champion is a three year old pair with a strapping bull calf! This elite brood cow prospect could bring you to make all those dreams come true in 2022 as she has as much to offer as any single heifer we've raised. Her dam, an up and coming Red Six Mile Game Face donor, her maternal grand dam is a past \$25,000 sale topper in Red Round Up, and her sire is none other than the \$125,000 breed enhancer for growth, pounds of product and udder quality in Red Six Mile High Caliber 177C. Visually Blackbird 1901 is massive bodied, soft in her rear rib and flank and carries herself with the broodiness of a powerhouse all while exhibiting a gorgeous front end. Come to Olds on October 19th and see for yourself that this is one to admire.

Red Cinder Mabel 576G

Olivia is a moderate female that exhibits structural soundness from top to bottom. She carries strong genetic potential for all the maternal qualities that we endeavour our Angus breed to be; udder structure and quality, femininity, and disposition. Her two year old dam is a dark pigmented, hard working little momma that traces back to Redman and Prime Rib. Olivia's sire, Red Cinder Voltage 4E, was our high seller in the 2018 On Target Bull Sale to Altona Farms. Voltage's dam is a premier dam that cranks out consistency that both pleases and works. His sire is notably, the infamous Red Soo Line Power Eye 161X, one of the hottest and most currently recognized sires in the Red Angus industry. This doll of a heifer will be a great asset to anyone's program as a future producer and show female.

Red Cinder Freyja 729G

Red Cinder Brylor Freyja 729G, aka Promise, is a female that gives nothing up. She is most certainly the longest spined heifer we have ever raised, although it doesn't end there. She has the same beautiful, feminine skull shape as her momma and a sweet front end that ties in flawlessly with her shoulders and forerib. Her long muscle patterning and clean joint structure add to her picture of femininity. Promise's dam, Red Cinder Freyja 29E, is from a coveted family in our operation and is certainly a special cow in our eyes. Her long list of credentials and admirers speak volumes. She sold as a ½ interest in last year's Red Roundup Sale, valuing her at \$30,000 and we will be offering a flush opportunity in this year's sale. Promise's sire, Red Bieber Makin' Hay 9913, is a maternal great that has certainly contributed some proven genetics. Bieber's regard him as a strong maternally backed bull that provides low BW, fast growth and moderate mature size. This heifer calf has been shown alongside her dam this summer with much success, and will continue to throughout the fall shows. She is as gentle natured as they come and will make any junior, big or small, a great heifer. Envision the possibilities, and potential this gal has.

Red Fraser Queen 905G

Fraser Poker Face 613D - Sire

Back the bus up a couple years.... do you all remember the "Dark" lot 1 bull in this very sale? Here is the first daughter we have offered by him. This female has commanded your attention whenever you visited the pasture all summer. She was "the one" that stood out every time. She's out of a first calf heifer sired by another popular "dark" bull in our herd in Answer 10X. He walked in our pastures for several years leaving both popular daughters and sons in several astute herds. Poker Face's legacy is yet to be written with his progeny rising to the top across the country. Just ask anyone that has used him!

Red Rack Lancer 5G

Her dam has always given us sound producing calves. The dam has always kept a beautiful udder with a solid thick top line and great feet. She has been very easy to keep. Raising two bull calves that have gone on to be an asset in customer programs and raised a coming bred heifer has been retained in the herd that is looking very correct and promising. The Lancer 2B is a solid eye catching female that has natural muscle, rib shape and stoutness without taking away from her femininity. We have committed to bringing good quality females to this sale. When you're searching for a solid female to build on your program, she will get it done.

Kuruba 112G is backed by arguably the best cow families top and bottom at Lazy MC. Her dam 128A is a maternal sister to Red RMJ Redman 1T, and sired by the 2012 US National & Denver Grand Champion Bull, Red Lazy MC Eye Spy 64Y. The top side of her pedigree is stacked with outcross genetics, and backed by our Bess cow family, that includes supreme championships & the top Semex herdsire, Red Lazy MC CC Detour 2W. Barstow Cash, BC Eagle Eye, BC Lookout, HF Tiger, Whitestone Widespread, 6807, are just a few of the Angus legends in 112G's pedigree. Show stopping phenotype, maternal & carcass genetics, and a dam that produced the high selling bull in Lazy MC's 23rd Annual 'Signature Series' Bull Sale, Red Lazy MC Empire 134F at \$24,000 to Duralta Farms.

Kuruba is entered at the Olds Fall Classic Show. Be sure to stop by and look her up.

Red Shiloh Gracious 24G is an impressively powerful, strong topped heifer, while still maintaining a feminine, attractive front end. Her Dam's paternal brother, Red Shiloh Desert Storm 22D, was the Canadian Red Roundup's Bull Futurity Champion in 2016, as was her Dam's sire, Red Wildman Chuck Norris 012X, Bull Futurity Champion in 2010.

Gracious 24G's Maternal Sister, Red Shiloh Evocative 26E, was one of our high selling feature heifers in our 2018 Trendsetter Bull and Select Replacement Heifer Sale. Her sire, Red Cockburn Assassin 624D, walked here at the Ranch for 45 days last spring and bred 36 females, resulting in several offspring that are in the top end of our bull and replacement heifer pens this fall. Assassin was the high selling bull at 2017 Cockburn Bull Sale, selling to Brylor Ranch for \$77,500.

We are looking forward to seeing the positive impact this exceptionally sound, well-structured female is bound to make in the future of the Angus breed.

Shiloh Cattle Company reserves the right to campaign SCCA 24G throughout the 2019 fall cattle show circuit. Arrangements will be made to deliver her after Canadian Western Agribition.

Red Shiloh Canadian Gal 32C - Dam

Red Shiloh Gracious 24G

Red CL Steen Bayberry 21G

Here is your first opportunity in Canada to purchase a heifer calf out of 9 Mile Franchise 6305. Bayberry 21G is a result of our 2017 Red Round-up purchase. Red Golden Sunset Bayberry 21E was purchased by Lane for his 4-H project that fall and had a successful show season. 21E is now a top cow in our herd, she has a beautiful udder and is a picture perfect cow. This heifer calf is not only impressive on paper, she is moderate framed, deep bodied, and feminine fronted. She is halter broke and has taken part in a few shows already. She would be a fantastic junior show project!

Full Sister to 118G - RLH 24Z

A quality female rich in both terms of eye appeal and structure, she is deep in muscle definition yet feminine and balanced. Her heritage indicates longevity, performance and production as her picture perfect dam has been a stellar producer, it's no coincidence having numerous progeny selected for Red Round Up, Chinook and Cowgirls sales, sons well received by our bull sale customers, then back to the donor pen last fall at 17 years young. A full sibling had an exceptional show career with Travis in junior shows. Guaranteed proven genetics are in play. Fancy in form, this red diva has promise to be a fabulous brood cow or banner earning show prospect.

Red Goad Maria 113'19

Maria 113G is out of a productive Smartin' Up daughter that has always produced one of our top calves every year. Many daughters have been retained in herd; one daughter sold to Lust Farms. Maria 113G is the type of heifer that we should be retaining in herd to replace her dam, but leading up to the 50th we wanted to offer our very best that was selected for the sale. We didn't hold anything back for selections made for Red Round Up.

The power that Shocker has passed along to his progeny has surpassed our expectations, we look forward to his daughters being in production. We believe they will be the type of females that you can breed to any sire and will result in functionable progeny.

Any juniors that purchases a Goad Family Angus heifer, we will also design a special show tag for your new heifer.

Red Goad Gamma 237'19

Gamma 237G is an outcross heifer being sired by our SAV Pioneer grandson, that we used for a couple of years to add the outcross genetics into our red herd. Her dam is a first calving Bazinga daughter, going back to a Red Dwajo Wildcard 119S dam for a real neat outcross to 237G. We can't say enough good things about our Bazinga daughters that are now a couple of years into production, we just wish we could have more of them. Semen is very limited on Bazinga now, and we use it very sparingly.

Gamma 237G has caught the eyes of visitors this summer with her dark cherry red colour, and natural muscle expression. Would make a great prospect for a junior member, as she has been great to deal with during halter breaking but still has that attractive presence to her.

Any juniors that purchases a Goad Family Angus heifer, we will also design a special show tag for your new heifer.

Red Double C Marslite 718G

718G came into this world on January 27 at 87lbs off of powerful deep broody cow. Everyone knows the sire Red Brylor JKC Ghost Rider 108Y. But it is cow side that adds depth to the pedigree of this sweet made heifer. The grandsire and grandam of the cow is none other than Red SSS Boomer 803B, and Red RSL Sue 400F that Six Mile had such great success with. CPRA 242A is an amazing mamma cow. With this powerful foundation this heifer will add some old with some new, to mean great possibilities for the future generations of Red Angus offspring. 718G is a sweetheart to work with and her physicality will make her a keeper for many productive years.

Red Double C Roga 735G

Roga 735G was born January 31, 2019 at 83lbs of sweetness. She is a heifer that drew Brian because of her mother Roga 474B. 474B always gets to come in early from pasture because all of her progeny are always in the top end of Cameron's picks each and every year. He calls this young cow one of his top cows. She has SMW Smack for grandsire and Flying K Max in as well. The sire Whippet 399W is a bull we raised and sold through our sale to Flying K but we retained some semen on him and are now dipping into that semen tank. The results are heifers like Roga 735G. She is a solid made individual with a deep body with sound legs to carry her through for a long productive breeding life. Her mom is as good as they come and we are confident that she will carry on that tradition of her mom and grandmother 93Z who is producing females and bulls that constantly are noticed when toured by our customers and also visitors like Brian doesn't forget what he sees in breeder's herds and he definitely keeps finding the ones that he remembers from one year to the next. So take a look at this deep, solid made heifer. We are confident she will look good in her new home.

Red DSM Shady Lady 904G

1 of the other Cow families Bryan had a hard time choosing between. Originating from our old 326R cow we currently have 10 females kept back in our herd all carrying the Shady Lady name proudly. The past 3 consecutive years the Shady Lady name has graced the Red roundup catalogue with one selling to Lone Stone Farms in last years Red Round up. If that doesn't go to show the longevity and performance of this cow family I don't know what does. The Sire Red Mar Mac Delegate 72D has been our go to calving ease bull the last 3 years. They are born with style and eye appeal. He has been the most consistent birth weight bull we have ever used. Buy with confidence on this female to consistently calve out those 'keeper' calves.

Red Dwajo CR Lass 20G

Lass 20G is one sweet made heifer fancy front end, lots of volume and a nice booty to match. Tommy Jacks are becoming popular for their eye appeal and body type. 20G goes back to our Lass cow family that has worked very well for us, Lass 74R the great grand dam of 20G is still working in our herd today. If you're looking for eye appeal, longevity and one to hang a halter on Lass 20G could definitely be the right ticket for you.

Red TWG Tommy Jack 166A - Sire

Red Dwajo CR Lass - Dam

Red Corona Creek Ms Cola 61G

Cola 61G is a long, deep bodied female, that gets out and strides very freely with a super disposition. Her sire True Deal is our senior herd sire that has left a legacy in our herd. He provided us with many great replacement females and they all carry "Trues" wonderful, quiet disposition, with great feet. Her dam Cola 72A was the 2015 Reserve Champion 2-year-old female at Farmfair. She continues to give us amazing calves every year and we feel that 61G will follow closely in her footsteps.

Red Corona Creek Countess 7G

Countess 7G has given us the gift of production and style, she is correct made, bred for calving ease with a dark cherry red colour and solid foot structure. We purchased her sire from the great folks of Finline Angus, this being his first calf crop, he has proven himself with siring progeny that are sound made, and deep bodied.

Her dam Countess 48A is a home raised female out of a top producing Get-A-Long cow. She's deep bodied with an impressive udder that has been passed along to several daughters that we have retained in our herd.

Red J Lazy A Sammy 97G

Red 9 Mile Verdict 7111 - Sire

I remember one warm sunny spring day riding a colt through the red pairs and sending Bryan Mackenzie a text saying write 97G down in your notebook for Red Roundup, She's a ripper! 97G is a heifer calf that we are very proud to bring to town, and has had that special look to her all year long. The first daughter to sell from the impressive 9 Mile Verdict 7111, she exhibits his excellent fleshing ability putting pounds on with ease. She travels very free and effortlessly being very correct in her makeup, along with that dark cherry red color. Her Dam Sammy 1E is correct from the ground up, moderate in stature with a nice udder. Sammy 1E is also a paternal sister to both our past bred consignments at Roundup selling to Fraser Farms and Golden Sunset Ranch. The females going back to the Blackbird 6125S cow have been real feminine good working, nice uddered females for us. Sammy 97G has been a standout on the Ranch right from an early age and we have great hopes for her.

I really like this calf. Hard to part with but felt only can bring the best to the best sale. The Answer bull has left great females here at JAS. With greats like Design and Kodak only add to this female's heritage. Long smooth with a great rump this sweet heart will have many friends in the barns. Great disposition as well.

Red MF C201 Rosebud 103G

A favourite March born heifer calf out of a powerful cow family. Rosebud 103G is dark red, long bodied, and wide topped with extra capacity and with a real attractiveness about her. Her dam 34C, is from the Rosebud cow family that started with grandam 1R who was the Champion Female and high seller that we purchased from the All AI'd Sale she was raised by Don and Jade Mackenzie. She developed into an outstanding brood matron, highly maternal and super feminine. 4 full brothers to 34C were very popular and well received at our Cutting Edge Bull Sales over the years, exhibiting outstanding performance and length of body. Red Rust Redeem sires low birthweight, high growth cattle that are solid made, moderate framed with lots of capacity and volume. We were very pleased with the quality and depth of his first calves and excited by the future bull and female prospects we have.

Red McGowan Larkaba 49G

Red That'll Do Larkaba 60Z - Dam

Larkaba 49G is one of the first to sell from our newest herd sire from Leeuwenburgh Angus. These calves have developed into what we are striving for. This heifer calf has a bright future coming from our most phenotypic cow and our stacked pedigree sire which includes the likes of Rollin Deep, Sakic and Harvestor. Larkaba is a stylish female with length of body and correctness.

Red Redline Lana 80G

Red Redline Lana 47C- Dam

80G will be a very hard female to part with. Her mother raised our feature bull in our 2019 sale, and is proving to be one of our most attractive; yet powerful-females. Her udder is exemplary, with a massive spread and perfect teat size. This heifer calf is fancy made, and has ideal numbers on her side. Her sire's first calf crop has been very exceptional, and her paternal brothers will be featured in our 2020 bull sale.

Red ACC Samaria Gigi 152G

Samaria Gigi 152G is a really interesting straight Canadian female. She is one of 5 red calves this year that go back to Young Dale Nozeka 2Z. We walked ACC Nozeka 27C in hopes of getting some red calves and we were not disappointed. This heifer calf has a brother that we plan on using. We purchased Red Dual-E Samaria 3D through the Masterpiece Sale in 2016 and she has turned into a very nice female.

Red SVR Lana 6G

Red SVR Lana 32E - Dam

Red SVR Lana 6G is a very flashy female who is very complete in her make up. She is a stout, long bodied female with lots of neck extension. She is out of a very productive cow family. Her dam Red SVR Lana 32E has had a successful show career. She was reserve champion in her division at Canadian Western Agribition 2018 as a bred heifer. This calf has made lots of friends not only because of her appearance, she also has a personality to match. She is extremely quiet, and would make an excellent project for any junior.

Red YCR Annie 1922G

Red YCR Annie 15110C - Dam

Annie is a direct granddaughter of the Brylor Annie 32Y whom is still in our herd as one of the best, and, the dam YCR Annie 15110C is again, a direct daughter of our the Lauron Apex 76A sire. Annie 1922G is probably the first daughter to sell in Canada from the Brown BLW Intrepid C5963 sire owned by 8 Red Angus operations in the US. Intrepid is a neat outcross pedigree combined with the great cow Red HXC Patricia Rose 102Y from Hueffle's in Nebraska. This deep bodied, square framed, flat topped female is a great combination of genetics unique to Canada.

Red Triple H Mill Coral 12G

Here's an interesting heifer calf. We bought a semen package of Red MRLA Millenium 75B from WRAZ and 12G is the first calf to hit the ground for us. I was hoping Bryan might overlook her but as usual he scoped out the top calves right away. Her dam is a first calf black/red carrier that has some proven genetics the likes of Red Lazy MC Hustle 18T, Sitz Upward 307R and Net Worth 4200 in her pedigree. Very solid EPD's and a unique twist on paper are just part of this sweetheart's allure. 12G is long spined, deep flanked and very smooth in her lines. Correct at the ground level with a feminine appeal, she will be the type to raise them right!

Red Ward's Freyja 61G

Freyja 61G comes out of one of our oldest cow families, Tracing back to a Red Round Up purchase in 1982 from Saskaire Red Angus. 61G is a prime example of why we love this no nonsense cow line! Deep made, easy doing all wrapped up in a feminine package. Her Dam 141Y has been a solid producer with a daughter working at L-Dee Stock Farm. Her sire Fusion 69D has sired us a consistent, stout, easy fleshing Stylish calf crop. 61G will prove to you why the Freyja cow line has stood the test of time in our herd.

Titanium is leaving his mark!! Deep open ribbed, soft made and easy fleshing is the best way to describe his progeny. Slushie 52G has been an attention getter since this spring. She is loaded with eye appeal and backed by a highly maternal mama cow that will soon be lined up for donor duties within our breeding program. Slushie is the type to hang a halter on as a yearling then watch develop into a productive brood cow. Her pedigree is stacked with breed giants yet exciting with a touch of outcross flair. Fancy, Fresh and a Favorite!!

Red Circle G Blackbird 912G is a beautifully patterned Franchise daughter that has much production potential. Franchise 6305 was the 2017 9 Mile Bull Sale high seller at \$105,000 US to Pieper Red Angus. He has matured into an impressive herd bull with curve bending epds and offers fresh, outcross genetics.

912G's dam was my pick and one of the high sellers at the 2017 Pinnacle Sale and this, her first calf, proves she was a great investment. Her dam is the highly regarded Crowfoot 6152S female that sold through Red Roundup for \$25,000 to Golden Sunset Ranch. Adding the proven female maker, Six Mile Game Face 164Y, to the genetic equation only intensifies the maternal strength. 912G excels on so many levels as she has a proven, outcross pedigree, is structurally sound, deep ribbed, square hipped, feminine with a promising udder design and the look of a brood cow in the making. This one has the genetic tools and physical attributes to make an impact. She is truly hard to part with.

Red Circle G Blackbird 912G

Red DTA Ruby 37G

Red DTA Ruby 27C - Maternal Sister

A very solid stout growthy Custom Made daughter off a cow that has consistently raised a show/sale calf every year. Can't say enough good things about Ruby 111Z, she has raised two sale heifers both selling to Nielson Land and Cattle and one being Reserve Spring Heifer Calf Champion at Farm Fair and the other being third overall in the division. 37G is from the top end of heifer calves and is a hard one to part with.

Choice of Bred Heifers from Triple S Red Angus

We are excited to return to the Red Round-Up Sale. Our consignment this year will be the ONLY heifer offered from the 2018 born heifers. We are selling choice of over 80 bred heifers sired by Red SSS Approval 667D, Red SSS Tactic 651D, Red SSS Ambush 771X, Cockburn Assassin, Brookings Real Estate, SSS Dustoff 704D and Red SSS Contender 121B. This group of young females were A-I Bred to Red SSS Tycoon 225E, the \$35,000 purchase by Y Coulee and W Sunrise in the 2017 Bull Sale and to Red Golden Sunset CKN 16F our selection from their 2019 Bull Sale.

We are looking forward to showing you what we believe is one of the most impressive sets of Bred Heifers we have ever raised.

To be paid in full on sale day and selected by November 30, 2019

Frozen Genetics

JOIN US ON FRIDAY, OCTOBER 18, 2019 at 8:00 PM for the Frozen Genetics and CRAPS Benefit Auction
at the Olds Cow Palace, Olds, Alberta

1. RREDS Primrose 420B. This 5 year old primrose cow is an example of what we are trying to produce. She is moderate birth with production, longevity, fleshing ability and udder quality. Her mother is coming 15 years of age and has been an influential cow in our program. Her life time ratios are 10 natural calves at 94 BW and 101 on WW. Maternal brothers have sold to countless breeders and AI studs.

2. A late February Seneca daughter that is one of our favorites of this years crop. His Dam and Grand Dam are both in the donor pen and do an incredible job raising capacious progeny that have the momma cow look. Her Grand Dam ratios 99 at BW and 114 for WW. A Maternal brother sold to Senn Red Angus of Nisland, South Dakota and is doing a great job. His dam is joint owned with us and Devin Warrilow of Minburn Angus. From our Lana cow family.

3. A RREDS Seneca daughter out of the Primrose cow family as a wet two year old pictured in August. She sold to Cockburn Red Angus and South View Ranch for \$16,000 and is a real calving ease breeding piece. Full and maternal sisters are working at the ranch. We will have over 25 daughters out of this young two year olds mother by 2020.

4. Basin Primrose 0T43. This cow has been a cornerstone in our program. She ratios 94 on BW and 107 on 7 natural calves and is a proven improver her for fertility and production. 2 flushes have sold in the past that produced 10 sons with an average of \$28,000. Pictured here coming 13 years of age.

5. Pie Cinch 4126, One of the first breeding pieces we added to our program. A daughter sold a Seneca son for \$50,000 last year and has had sons top sales in several herds across the country. His bull calves grow like weeds and his daughters are proving to be cows that breed on time, ratio well and can last.

6. RREDS Torque. This Seneca son comes from one of our favorite cow families. His mother is a Lana cow that comes from a family that always works hard and breeds on time. She posted a 102 WW ratio with a 367 day calving interval. Torque was our high seller in 2018 at \$75,000. He has a full brother and a maternal sister with a Seneca son that will highlight this years sale.

7. RREDS Seneca 731C. Seneca has been a great blessing to us. His first crop of daughter are wet and they are the right kind. Easy doing, soft made, with spring of rib and doing ability. The udders are nearly flawless and we couldn't be more excited. His Sons have top our sale for the past two years and will probably do so again this year. This is an opportunity to select a daughter that, with the right mating could provide a program a real outcross opportunity.

Pick of the Herd Flush at Rhodes Red Angus

Terms: Rhodes Red Angus Guarantees 8 grade one embryo's, but there will be no cap of any sort. If a donor cow has a good flush and produces for an example of 15 embryos, the buyer is entitled to the entire flush of any cow in our program. The buyer will have the expense of flushing and export cost.

Philosophy: Our program is built around nothing more than what has been taught by practical cattlemen since the beginning. We have centered our program around the idea of producing females that fit the needs of commercial and registered breeders alike. Convenience traits are an absolute must and we will not tolerate riff raff. The cows breed on time, raise both females and bulls that have opportunity to produce cattle of end product merit but do not sacrifice the cow in the process. It is an effort of constant battle. We cull ruthlessly for convenience traits and the producer in mind. Great bulls are a by-product of a maternal breeding program. Please feel free to call with any questions. Visitors are always welcome at the ranch.

Here she is one last time! Blackbird 6125S was the high selling lot at Red Round-up 2015, which we purchased from Diamond T. She is an exquisite brood matron with extreme capacity, a gorgeous front end, exceptional udder, and a strong foot, just to mention a few. She has produced progeny that are low maintenance, easy fleshing, with moderate birth weights. Daughters are the pick of the heifers every time someone tours the farm. We are using a son in our own herd as well. We believe in these genetics, and so do other producers. J Lazy A has sold bred the previous two years going back to Blackbirds genetics, with another calf this year at the sale. If you look close enough through the catalog, you may just find her name pop up in a few more pedigrees. Take this cow and flush her to the bull of your choice. We will be happy to give you our suggestions on the best sire to cross with, but remember, it's 100% your choice. And the embryos are 100% yours. We guarantee 6, but if you get more, they are all yours! She is at DRI right now ready to go. Flush her now and get your embryos early so you are ready for next breeding season. Blackbird is the type of brood matron that you would love to have a herd full of. Don't miss out on this opportunity to get the genetics you want and need!

Terms: Golden Sunset guarantees 6 freezable embryos. 1/2 due sale day 1/2 due upon completion of flush. Flush to be performed in November to December 2019. Buyer pays all cost of flush. Flush to be done at DRI

Red Cinder Freyja 29E, or more affectionately known as Kiki, will be a flush opportunity that you won't want to pass up. This female has so much goodness about her; she is a long spined, big ribbed daughter of Power Eye and our premier dam, Red Royal Freyja 29M. Kiki is one of the most elegant females that we have raised, right from her looks to her movement. She has an almost unmatched show record as a yearling heifer; with Grand Championships at both Farmfair and Agribition, as well as First Lady Classic Red Angus Champion and 3rd overall female, and Canadian National Jr All Breeds Heads Up Bracket Challenge Champion. She is a great footed, structurally sound female with near perfect udder that is packing an impressively stout heifer calf sired by Red Bieber Makin' Hay 9913.

The only other flush opportunity on Kiki sold last year at the Masterpiece Sale to Kenray Ranch and Merit Cattle Company.

Guaranteeing 6 freezable embryos and splitting after 8. Sire of buyer's choice and flushing to be done at mutually agreed donor facility.

This stunning two-year-old from the well-known Olivia cow family, is the epidemic of feed efficiency. In fact, all of our Outsider 387C daughters are this easy fleshing and sound uddered. A half interest in 950E sold in our 2019 Agribition "Genetic Focus" online sale to Sunberry Valley Ranch. She is well on her way to paying for herself with her first outstanding heifer calf. We plan to have the pair in our fall show string. She is bred to calve early February and here is your opportunity to gain access to these elite genetics.

Offering one flush -with a guarantee of 6 number one implantable embryos and two sixty-day pregnancies. All embryos up to 12 are the buyers. Six Mile / Sunberry will split embryos and costs with the buyer if the flush produces over 12 embryos. Six Mile / Sunberry will allow the buyer access to the majority of their semen inventory for the flush – giving the buyer unlimited genetic potential.

The flush to be done at Six Mile or an ET facility of their choice. All costs of flush and embryo shipment are the responsibility of the buyer.

Choice of Reba 49W (1/2 embryo interest) or one of her daughters from On The Mark

Selling choice of either Reba 49W (1/2 embryo interest) or 1 of her daughters

Only in such a special effect as Red Round Up (that Mark has come to love and support of the years) would On The Mark even consider offering such a wonderful deal.

Reba 49W is the signature cow for On The Mark and has garnered attention from all corners of the planet. She originated in Manitoba at Mar Mac Farms, that was their consignment in the 2009 edition of the world famous Red Round Up. Her production includes a daughter that topped the 2014 J-K Dispersal in Missouri at \$8,000 USD to Darrell Rhodes.

Two other daughters topped the Mayhem sale in Kansas on two different occasions, one at \$9,750 and the other at \$7,250.

At the very entertaining event in Reno, called Bet on Red, Reba had yet another heifer calf that topped that sale at \$10,000.

She is currently bred for a February calf by the \$20,000 Renown son called, Freeway 134F.

Current plans are to put her back into our embryo donor program at DRI in the spring.

The other part of this lot is the choice of her remarkable daughters, she currently has six female offspring residing in Canada at Mark's "Northern Headquarters" in Pincher Creek.

There are three full sibs (2 C's and a D), to the \$10,000 Reno heifer calf a few years back to Bootjack, Wraz, and Rose McFee.

There is a gorgeous three year old cow (049D) by and HXC sire, called Hotshot 4424B that Blairs' own.

My personal favorite is a phenomenal two year old natural daughter of Tommy Jack (500E), this female as Lois McRae put it "Makes your socks roll up and down..."

Lastly, we have an off-age natural born daughter of Bieber Let's Roll, September 30, 2018 born (149F).

Fair warning...the last time we sold shares in this cow at \$13,500USD...both the buyer and seller had a tear in their eye – Mark for being happy and Kevin Blair because of the bear hug Mark bestowed on him as the buyer!!

The only 3 eggs we have from the very last flush ever on the wonderful Donor cow at Brylor. We lost her this spring and have a very low inventory. She was a \$14,500 ½ interest cow at the RRup 2016 to New's in Indiana. She has produced the \$57,500 bull Red Brylor Red Kodiak 3A and has several daughters in our herd. The sire of the embryos, Staunch, has been a stellar female producer lately. Two very notable daughters are the \$26,000 high seller at RRup in 2017 to Mexico and the former Red Round Up grad in 2015 to TerRon who went on to produce the \$37,000 high seller at Terry and Rob's sale this spring!

Selling a package of Three (3) #1 frozen eggs. Guarantee 1 90 day pregnancy. Stored at Davis Rairdan International FOB.

49W is a former Red Round Up graduate, she started out standing on the coveted Red Round Up heifer calf bed, and has gone on to prove her worthiness!! A big, strong and sound cow in all regards this Mulberry granddaughter is now a very successful Donor cow for Mark Chriss. She produced two high sellers at the Kansas Mayhem event, one in Reno for \$10,000 and one in the JK Dispersal. She herself sold for \$13,500 for a ½ interest there as well. Mark and Brylor have six daughters in the herd and Clair's have two. Also a son is being used by Brewins'. Her embryos topped the Masterpiece last fall. The sire, Staunch, is a sure thing when coupled up with a cow like Reba 49W. Think of the bred heifer you could bring back to Red Round Up for the 50th Anniversary form this classic mating!

Selling a package of Three (3) or Five (5) #1 frozen eggs. Guarantee 1 or 2 90 day pregnancies. Stored at Davis Rairdan International FOB.

This gorgeous cow could be the most visually stunning daughter of the old legend himself, Mulberry! She has that wedge shaped and tanky look to her - yet maintains so much femininity, it's incredible. She can also produce with the best of 'em too! She raised a \$17,500 heifer calf in the US Mayhem to Kacie Ade in Illinois. She also had 2 \$10,000 daughters to Stephens' in Arkansas. Also embryos topped a sale at \$1750 each. The sire of the eggs is a highly sought after and very popular double Grand Champion bull at both FarmFair and Agribition.

Selling Two packages of Three (3) #1 frozen eggs. Guarantee 1 90 day pregnancy per package or Three (3) if buyer takes all Six (6). Stored at Cross Country Genetics FOB.

The Marta cow family came to Six Mile through this very Red Roundup sale. Marta 238C is a champion female with a ton of class and proven earning potential. Marta 238C already raised a \$30,000 heifer calf and her embryos topped the Red Angus division of the Embryos On Snow sale in Denver 2019 at \$2,400 USD. Her mating to the exclusive, unique pedigreed, Upload bull will combine his performance and her profile, resulting in highly anticipated progeny.

Selling Three (3) number embryos, guaranteeing one sixty-day pregnancy. Embryos FOB Davis Rairdan Embryo Facility.

Bullion is the newest breeding piece at Brandl Cattle Co. He's a maternal brother to the 2017 Denver Reserve Grand Champion, and Fort Worth and Houston Grand Champion Bull. He's sired by the uniquely bred – Red CRSL Goldmaster X74. His first calf crop at Brandl's is incredibly consistent. Moderate birth weight calves with muscle, bone, volume, style, performance and best of all structural integrity.

Red BCC Watch Me Now 83W has four daughters. They will never leave Brandl Cattle Co. She was the High Point Female from the 2012 Northern Alberta Summer Show Series and has become a CAA ELITE Female with a ratio of 106 on 8 calves. Her first son Steel Force was used heavily at Brandl Cattle Co. and has several really good daughters there. A recent son will be a feature two year old in the 2020 Brandl Bull Sale. Red BCC Watch Me Now 83W is one of the nation's top Mulberry daughters. That says a lot!

Selling Three (3) Embryos with a guarantee of one pregnancy if implanted by a certified technician. Embryos are stored at Sundown Livestock Transplants. Exportable to USA.

This mating is right off the very top of the Lazy MC embryo program. Offering four (4) embryos by EGL Fury 8100 & Red Lazy MC Pepper 128B.

128B is a model Red Angus Female, sired by the 2012 US National & Denver Champion Red Angus Bull, Red Lazy MC Eye Spy 64Y. Her dam traces back to SAV Masterpiece adding tremendous outcross genetics. 128B has been an outstanding producer, including, Red Lazy MC Switch Blade 113F an \$11,000 herd sire, in Lazy MC's 23rd Annual 'Signature Series' Bull Sale to CO Johnson and Sons Ranching. The sire of these embryos is one of Lazy MC's and Semex Beef's newest herdsires & he is an exciting and impressive individual. Backed by strong performance data & EPDs along with a great phenotype, Fury is a top Red Angus sire. Fresh pedigree, and an opportunity to have the first genetics offered on a top new sire!

Selling Four (4) embryos with a guarantee of two pregnancies. Embryos are stored at Bow Valley Genetics.

Red Round up is truly a sale of greats. The past, the present and the future. Cattle that have shaped the future of the breed years ago. Those that are having their time to shine now. And those that are yet to leave their mark but are destined for greatness.

Although our fall didn't work out to have live cattle in this prestige sale we were humbled to have Darnell suggest a frozen lot. We figured what better cow to represent us than a previous Red Round up graduate, Duchess 10B. She commanded \$8,600 1/2 interest to BJ's Stud Cattle, Australia in Red Round up 2015 and hasn't looked back. She's been a spot on producer for our herd and one daughter was sold in the Pinnacle sale last year to Deep Lake Land and Livestock.

She's been flushed successfully to Red Lauron Blockbuster 78B and Red Ter-Ron Parker 34A. So we are offering you choice:

a) Three (3) eggs 10B X BLOCKBUSTER b) Three (3) eggs 10B X Parker

Guaranteeing one pregnancy if implanted by a certified technician.

Embryos stored at Bow Valley Genetics

You will have to drive the wheels off your car to find a female with this much depth of body, ease of fleshing, femininity, moves like a cat and beautiful udder.

2013-Red Mar Mac Lady Trooper 114Z was awarded the Canadian Red Angus Show Female of the year. She is now a foundation female in their herd. At Red Roundup, Mar Mac Farms sold 1/2 interest in 114Z to Brylor Ranch as one of the High selling bred heifers and in 2015 one of her daughters was one of the high selling bred heifers at Red Roundup to Bullis Creek in Nebraska. Brylor and Mar Mac flushed Trooper and then Brylor sold his interest in Trooper 114Z to Dale McKay. In the first Mulberry Mayhem, Brylor sold a Trooper embryo female as one of the high sellers to Mar Mac Farms and Dale McKay. You should see her Franchise bull calf he will be one to watch for in the 2020 Mar Mac Bull Sale. Her Mulberry son sold to Manitoba Red Angus Breeders: Denbie Ranch. You can not have enough Trooper 114Z influence in your program. In 2019 we used the Red Peak Dot Eliminator bull and had exciting results, moderate birth weights and lots of performance, they will be features at the 2020 Bull Sale.

Lady Trooper along with Eliminator cross is very exciting for the Red Angus industry with this proven maternal strength and being able to incorporate such greats such as Pioneer 7301, Iron Mountain 8066, Predominant 4438 and Eliminator 9105 into red hided progeny. You could get your next outcross herd sire from this mating.

When the Brylor Female sale catalog came out 99A caught our eye from the start. Here was a young female, excellent profile, thick made and feminine. Melissa went to the sale and was lucky enough to be the winning bidder for \$13,000. 99A has not let us down.

Her son at Brylor was a feature in their bull sale. Her first female sells in this sale 137F and we have a Ripzone son that will be in the Bull Sale 2020.

One and Only impressed us when we saw him at Bow Valley Genetics and this outcross pedigree on the top side and his depth of body and capacity was impressive.

A chance to get some new outcross genetics from outstanding maternal genetics.

Check out more progeny photos at www.marmacfarms.net

MOOSE CREEK RED ANGUS CHOICE OF EMBRYOS FROM THE FOLLOWING MATINGS:

- A. Red SSS Tactic 651D x Red Moose Creek Lana 70B
- B. Brooking Bank Note 4040 x Red Moose Creek Lana 70B
- C. Red Towaw Indeed 104H x Red Moose Creek Lana 70B

We have always done ET work sparingly. It has generally been with an aged cow with a tremendous track record, phenomenal type and a proven pedigree. Our belief is to let a cow produce uninterrupted until she is spent. When LUO 70B was injured, we realized that she fit all the criteria, however with a more youthful birthdate. Our goal is to aggressively transplant her moving forward. In our opinion, she is flawless in soundness, design and udder structure. Our hope is the mating offered produce elite progeny like she did naturally.

Verdict did not disappoint from the first time we saw him. Verdict's body depth, ease of fleshing, width of top, the way he covers country like a stud effortlessly, are a few things we like about him. Correct in his makeup, standing square and tracking wide expressing that natural muscle shape.

The first breeding season he crossed the border late for us but we still had 21 calves from him naturally as a yearling averaging 82.7 lbs off of heifers and cows. He weighed 2136 lbs at 24 months and 43cm scrotal as a yearling in Canada with a very well suspended scrotal. He is a great breeder, taking control of his herd and breeding effortlessly. We were super thrilled to partner with the great folks at Y Coulee Land and Cattle Spring 2019 on this exciting Herd Bull, where Verdict was with 90+ head between both Ranches and still carried great body condition showing his extreme fleshing ability. Both J Lazy A Ranch & Y Coulee Land and Cattle have great hopes for this bull and feel he has a lot to offer in the industry. Step in while he is fresh and exciting being a total outcross to most breeders!

Top 10% in 7 EPD categories as a yearling.

We are excited to offer this exclusive genetic opportunity this fall. We acquired this outcross herd sire as a calf from the Touch of Class as a calf in the fall of 2016. We were drawn to his natural thickness and near perfect foot structure. As an individual Titanium is loaded with natural eye appeal and overall dimension. He has quietly been doing a top shelf job of breeding in the select herds who have utilized this massive, masculine, meat machine. Titanium has sired progeny that are deep chested and wide in their overall construction. The Titanium progeny are extremely eye catching and easy fleshing. He has an ability to stamp his calves no matter how he is bred. Pedigree wise you couldn't design a more maternal individual; he has countless proven genetic lines. I guarantee you that it will be worth your time to do some homework! We will have 2 of his daughters on display at Red Round-Up 2019 so make sure to check them out as Lots 26 and 84.

This will be the ONLY opportunity to access semen on Titanium for the 2020 breeding season so don't hesitate in your decision making.

This semen is export qualified to US & Australia. Please contact us for additional information. Semen is stored at Bow Valley Genetics, Bassano, AB.

Selling 100 units of SEMEN. NO ADDITIONAL SEMEN WILL BE SOLD FOR THE 2020 BREEDING SEASON. Semen will sell in 10 dose increments with the option to sweep the ring at any point during the auction.

Daughter of Coming In Hot

Coming In Hot progeny have exceeded our expectations. Coming In Hot was purchased by Sunberry Valley in 2018 for \$40,000.00. Shortly after, Six Mile secured a half interest in him. His first calf crop shows him to be a calving ease sire producing easy keeping, well made progeny. Take a look at his daughters, offered as Lots 32 and 33. His pedigree is loaded with notables including his grandsire, the superb calving ease, black sire, Musgrave Aviator. If you are a fan of EPD's, CIH has that going for him too! Limited semen packages have been sold previously in Canada. This is his first offering of semen for the United States. Limited Semen for the spring 2020 breeding season will be released – only selling here at Red Roundup, and at Six Mile's Genetic Focus Sale during Agribition.

Purebred Breeder of the Year

HOWE RED ANGUS

In the fall of 1987, Elgin Howe his wife Lottie, their sons and families started Howe Red Angus. They chose Red Angus as a great complement to the Charolais cow herd they had already built. Doug went out to Mackenzie Bros sale in Alberta and purchased three Red Angus females. The following two years we made two trips out to Arcola, Saskatchewan and purchased roughly 15 head from the Moose Creek cowherd. These purchases carved out the foundation for our cow herd today. Our Creston cow family was created from one of the females that was purchased from Mackenzie Bros which would encompass roughly 25% of our cowherd, and our Envious cow family began from one of the cows purchased from Moose Creek Red Angus in 1988. She is responsible for 20% of our cow herd today.

The Red Angus breed has brought our family a great deal of success and fulfillment. Today we run approximately 300 Red Angus and Charolais cows and market around 85 bulls through our annual sale and off of the farm. This year will be our thirtieth annual bull sale. We are grateful for the opportunity to contribute to an amazing industry and work with some of the best producers in the business. Our family enjoyed a great deal of success with the sale of a number of embryos into Australia, Argentina, and the United States. We have shipped a live heifer calf to Australia, which is almost unheard of due to the cost of shipping. One of the most exciting moments for our family was the sale of Red BVR Rab Star 56C for \$75,000 to a consortium after we had campaigned him all summer and fall in 1994. We were also very proud of Red Howe Ms Kuraba 46C who we sold for \$20,000 to the same group and she was flushed and had embryos exported all over the world.

RED BVR RAB STAR 56C

RED HOWE MS KURABA 46C
First Consignment to Red Round Up

Our first time participating in Red Round UP was 1994 where we were the high selling female. We have been relatively consistent consignors ever since.

Some other success we are extremely proud of is the sale of RED HOWE BOLD EDITION 80T to Genex in 2008 and was campaigned in 2009 where he was a top 10 finalist in the Beef Supreme in Agribition.

RED HOWE BOLD EDITION 80T

A few other notable bulls we have sold in the past is RED HOWE MAGNUM 169C sold in 2010 to U2 Ranch. He has done a great job for them still being around at ten years of age. Also, Red Howe Clearwater 21C topping our 2016 bull sale at \$27,000 to Moose Creek Red Angus. We are proud of the job Red Howe Ms Envious 282Y has done and her incredible track record.

RED HOWE MS ENVIOUS 282Y

We have cattle working all across Canada, United States and Mexico. Our genetics did very well for Rafael Ramirez at the 2015 World Angus Secretariat held in Durango.

Our family has been strong supporters of our breed associations. Doug was a board member on the Red Angus Promotional Society. Mike has been a board member of the Regina Bull Sale, a board member of the Red Angus Promotional Society, a board member of the Saskatchewan Angus Association including president and is currently a board member of the Canadian Angus Association. We have hosted numerous delegations and tours including the 2007 Canadian Red Angus Promotional Society tour and Canadian Junior Angus Showdown, 2016 Saskatchewan Angus Association Tour, the 2016 and 2017 international guest tour from Agribition for lunch.

**2007 PROMOTIONAL TOUR AT THE FARM
Youth Cookoff**

We are grateful for the success and fellowship we've shared in the Red Angus breed and are very thankful for the many friendships we have made along the way. We were also awarded Breeder of the Year in Saskatchewan in 2010. It truly is a great fraternity to be involved in.
