1pm - at the Ranch  
Carievale, SK

27TH ANNUAL **MRL**  
**ANNUAL BULL SALE**

*Herd bulls designed by Ranchers for Ranchers*

On behalf of the entire crew here at MRL, we would like to welcome you to evaluate our 2021 lineup of herdbulls to be auctioned Saturday, March 6th at 1:00 pm.

The world is certainly in a different state than it was a year ago as I penned the welcome to our sale. One thing is for certain, the Ag industry has certainly proven to be an essential service and the backbone to the livelihood of our nation. For anyone reading this in the cow business, your operation is no different than ours as we pull our boots on every morning and go to work and do whatever it takes to run our business.

Our business, as you know, is the bull business and the majority of our year's income will happen March 6th, here at the ranch. Although things will be a tick different for 2021, as we follow Covid guidelines in place, we will still go ahead with a live auction with limited capacity. That being said, buyers will still be welcome sale day, with adequate social distancing in our large sale arena. We will be providing 2 internet services; both DLMS and DV Auction will be broadcasting live with real time internet bidding and once again, we have several professional sales consultants on staff to help with appraisals and bidding. Our sight program has worked well for many over the years and will certainly be available again with 100% satisfaction- call Lee or Dave. It is times like this we are fortunate to be in the business a long time and have a great cliental of repeat bull customers that participate year in and year out. Our program is very familiar to you and your program and breeding objectives are very familiar to us which will certainly help this year in getting you the right herdbulls for your operation.

Lean on us this year as we are here to help, and we certainly encourage and welcome visits to the ranch to view the bulls prior to sale day as always. We have always had great support from our friends south of the 49th and supply bulls annually to some great commercial cattle outfits. Although there may be travel restrictions crossing the border, as for getting you your bulls, there is no problem at all and as always, we will get testing done and can meet you at port with bulls or get them dropped at central points in North Dakota. To our great Canadian customers which spans across 8 provinces each year, we will once again get your bulls to central points near your ranch in western Canada and cost share to the eastern provinces. We are truly humbled to have many of the top commercial outfits in North America source their herdbulls right here at MRL.

As for the bull lineup, it is bigger and better than ever. Top to bottom depth in each and every division is stronger than it has ever been before. Our cowherd has always been the strength of our program and we continue to build. Upon assembling the top bulls to make the pen and start the catalogue, it is amazing how the majority of the bulls go back to a handful of cow families in each division. These cow families have earned their way to the top, simply on their superior production merit and are multiplied through ET production. For years now we implant over 100 embryos each year in both calving interval and are ruthless at culling the bottom end. This has shaped our cowherd into the productive factory they have become. Each and every bull in the sale is backed by productive, highly proven genetics that perform under ranch conditions.

Probably the biggest reason we have had success in raising bulls that work within the industry, is our program is in tune with that of our commercial customers. We run a bunch of cows in two different calving environments: over 400 calving in Jan/Feb, and 350 calving on grass in May. We background and finish our steers, we breed and develop over 250 replacement females annually. It's simple, genetics that don't work for us under our ranch conditions, won't work for you. The genetics offered in our bull lineup for 2021 are the cream of the crop and the result of almost 50 years of progression.

We are confident in our bull offering with genetics top and bottom on their pedigree that are highly proven to work for commercial cattlemen. As you flip through the catalogue you will find group after group with curve bender balanced numbers. Moderate birth, above average growth and maternal values. We feel this year's offering provides our customers with the numbers, consistency, and quality to satisfy the most discriminating cowman. Whether you need 1 or a trailer load of bulls, we have you covered with pens full of uniform herdsires to meet your demands. With the sheer numbers and end to end quality there will be affordable top end herdbulls in every rancher's price range with the majority of bulls landing in the \$4000-\$7500 price range.

Once again, welcome to our 27th Annual Bull Sale. If you need assistance in any way, don't hesitate to call us here at MRL or any of our sales staff. Plan to come and tour the bulls anytime prior to sale day and we look forward to visiting with you on the phone prior to sale time or at the ranch sale day. The bulls that are pictured in the catalogue were all videoed the end of December as we took pictures and we're hoping to video the remaining bulls the first week of February and they will be posted on DLMS, DV Auction and on our website the week prior to sale day. Thank you once again for your cooperation and confidence in our program. Rest assured we will do our best to help get you the bulls you need to keep your operations progressive and profitable.

Working for and with you in the livestock industry.  
Everyone at MRL

## ABSOLUTELY 100% GUARANTEED

We guarantee to provide you with a sound breeding bull capable of passing a semen test by a licensed vet within 14 months of age. All bulls over 12 months of age will be semen tested as satisfactory by Sale Day. Should any MRL bull fail to be a satisfactory breeder, he will be replaced with a bull of equal value and quality or a credit will be given towards the purchase of another MRL bull. We carry a good supply of backup bulls and will make sure you have bull power to get your cows bred. If you have a problem, notify us immediately, because we're not happy until you are satisfied with your MRL bull.

## Bull Selection

Purchasing a herd bull is very important. Every cattleman is always searching for bull power to improve certain traits in their cow herd. It can be a frustrating and time consuming task. We would be pleased to assist you in identifying a bull or bulls suited to strengthen your program. We offer a wide genetic pool of red and black Simmental bulls as well as Purebred Red and Black Angus and Simm/Angus hybrid bulls. High growth to bulls suited for your heifer pen in every category. Please give us a call in time before the sale to discuss your herd bull requirements.

## Payment Options

2/3 down sale day. 1/3 on possession of your bull or by May 1. Give us a call to discuss financing options.

## Volume Discount

2 bulls 2% discount on your total purchases.  
 3 to 4 bulls 3% discount on your total purchases.  
 5 or more bulls 5% discount on your total purchases.

## In-Herd Semen Interest

MRL reserves the right to draw semen on any bull sold for in herd use at the buyer's convenience and our cost.

## Insurance

Alameda Agencies, Bonnie Thompson Ph: (306) 489-2250.

**We strongly urge you to insure your bull purchases.**

## Identification

All sale lots will carry a CCIA tag with lot numbers

## Delivery

Free delivery to central points near your ranch in Manitoba, Saskatchewan, Alberta and North Dakota. All other points will be cost shared. Bring your trailer and receive \$100.00 discount when you take your bull purchase(s) home on sale day.

## Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

## Presale Lunch

Join us for lunch at 11:30 a.m. Sale Day.

## Catalogue Information

EPD's are current and up-to-date as of publication date. Information in this document is believed to be accurate but any updates from the auction block will take preference. Pedigrees in this document have been supplied by the breed Association and all other information has been supplied by the seller.

*Important Sale Information*

# SIGHT UNSEEN PROGRAM

We would love to have you join us for our annual Bull Sale at the ranch. If you can not, this program has worked well for many busy cattlemen unable to make it to our sale. With families and a bunch of cows ourselves, we realize that with hockey, 4-H, chores, frozen water bowls, cows calving and everything else it is sometimes hard to be everywhere you want to be on certain days. Each and every year we sell more bulls through this program from clean across the country to next door neighbors. The program is simple. Call us in advance (preferably a week or so) before the sale to discuss your cowherd, breeding objectives and herd bull requirements. From what we gather from talking to you about your program, we can fit you with a herdsire or herd sires with in your price ranges and suited to your needs without you leaving home. The bulls will be personally hand picked by Lee, Dave or Jim. We are a family run operation so the same person helping you pick your bull is the same person who calves, breeds, feeds and lives with these herd bull prospects and their mothers year around. We know our cowherd very well and the genetics strength of each bull on offer. Just the same as you know yours. Almost 50 years in the bull business we have gained a level of trust and integrity with our customers and have had repeat customers buy their bulls here for years and not been to a sale yet. We will get you the best bull for your program as reasonably priced as we can - you have our word on that.

## WHY THE PROGRAM HAS WORKED SO WELL:

- \* We know our cattle very well and can select a bull or group of bulls to suit your needs.
- \* All bulls are fertility tested and have passed a semen evaluation prior to sale day.  
(No Surprises after you have purchased your herd bulls)
- \* Satisfaction on arrival or we take them home.
- \* Many bulls are photographed in the catalogue.
- \* Complete data on all bulls such as pedigree's, birth weights, and EPD's let us accurately fill your order.
- \* After over 40 years in the bull business we have gained a level of trust and integrity with our customers.
- \* The Majority of our bulls sell to repeat customers from 5 miles to 500 miles from our Ranch.

## HERE ARE A FEW DETAILS ABOUT OUR OPERATION AND WHY WE THINK AN MRL HERD SIRE MAY WORK FOR YOU.

\* **Almost 50 years in the bull business.** Almost 50 years we have been committed to and stuck to producing Simmental seed stock which will work well under your commercial conditions. Easy fleshing, structurally sound beef cattle have always been #1 at MRL.

\* **Customer Care.** We will make sure you have a bull to breed your cows to. If you run into trouble, give us a call. We will have several insurance bulls at the ranch at all times and will get you a replacement bull as soon as you need one. We also have post sale delivery on offer. For those busy cattlemen unable to make it sale day, we offer a sight unseen buyers program and pre-selection program, as well as several sale consultants to leave an order with.

\* **Quality Not Quantity.** Our operation consists of over 700 working females. The 180 bulls on offer have been selected from 350 bull calves, therefore we can be very strict when selecting our offering. The toughest thing about our bull sale will be making up the sale order. Pens full of uniform 1/2 and 3/4 brothers.

\* **Bull Development.** These bulls have been developed on a high roughage, silage, grain and ground straw/hay ration plus minerals. Our objective is to offer you sound breeding bulls ready to go to work and stay working for years to come. "Stuffing" is for the "Christmas Turkey" not "breeding bulls". All bulls are semen tested prior to the sale so there are no surprises after you buy your herd bull(s).

- Character, substance, shape and overall structural soundness.

**TERMS & CONDITIONS**

**Terms** - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. We reserve the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase, we reserve full power to resell the animal to the best advantage either publicly or privately without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

**Disputes** - Each animal will be sold to the highest bidder. In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter is final.

**Purchaser's Risk** - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. We strongly recommend the purchaser insure their purchase(s) at time of purchase.

**Announcements** - Announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**Certificate of Registry** - A registration/recordation certificate issued by the Canadian Simmental Association, Canadian Angus Association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

**Shipping** - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management of Seller. See delivery information in the catalogue.

**Breeder's Guarantee** - As per the Canadian Simmental Association/Canadian Angus Association Breeding Guarantee guidelines. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to buyers. All bulls are vet inspected and sell with a breeding guarantee.

**Health** - All bulls are under the total MRL Herd Health Program. All received Express 5 Program, Dextomax, Vitamin and all will carry a satisfactory semen evaluation. MRL will look after health tests for cattle purchased by U.S. customers.

**Accidents** - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

**Rights & Obligations** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale constitutes a separate transaction and the right and obligations of the two parties connected by the terms and conditions of this sale.

**Pictures** - By attending this sale you are hereby granting permission for your photograph to be published by MRL in their catalogue and for advertising purposes only.

# RED SIMMENTAL YEARLING BULLS

This pen of red bulls for 2021 is sure to impress even the most critical cowman and is loaded with top end bulls out of some powerful breed leading cow families. Lead off with 15 Tycoon sons that are an absolute perfect fit for our elite commercial cattle outfits. Big, powerful, long bodied and hairy. They are an impressive group. Tycoon was the \$75,000 bull at SVS in 2019 we thought was the best red bull to sell that spring and would fit our program to a tee. He is a grandson of the immortal MRL Red Whiskey bull with the added bonus of a couple of outcross and elite cows to our herd. Speaking of Red Whiskey probably the most elite 2 sons we have ever offered are in the lineup and are 2 big time herdbulls. The Whiskey type and genetics will never go out of style with top commercial cattlemen. The best set of sons by the Rust 18C sire that we have ever offered in every division of the sale. The first sons of MRL Statement will demand attention including a feature son that is a maternal brother to MRL Playmaker, last year's high seller. 3 of the most impressive red MRL Missile sons to date and a dandy group by BBS Load M Up and ET sons of Bentley, Alliance and an ET full brother to last year's high selling black bull MRL Untouchable round out the performance bulls. Calving ease bulls with shape and substance by North Western and Focus as well as a group of impressive 1/2 blood bulls all by the \$90,000 MRLA Red Resource sire. This pen of red bulls has turned some heads and is backed by generations of elite cow families top and bottom in their pedigrees. Genetics that are highly proven to work for commercial cattlemen.

In the Coming 2 Year Old division, is once again a set of bulls you will want to analyze. Sons by Stone, Northface, Progress and Rust 18C. This set of bulls are not over managed, in ideal breeding condition and the temperament is second to none. A rugged set of extra age bulls that will cover some big pastures this spring.

A true powerhouse bull here in the most powerful set of red herdbulls we have ever offered. Big topped, powerful hip and packed full of natural muscle and still maintains that presence and look. Start of September ww of 950 lbs and will be one of the heavyweights on sale day. His dam has been a producer with sons going to Tica Holdings, Cory Jorgenson, ND, and Geisler Cattle Co., MB. It's no accident as she derives from our most powerful red cow family here at MRL which includes our 863S, 470U, 477U donor cows just to name a few.

One of the top bulls in this powerful Tycoon sire group. Moderate bw, big weaning, solid numbers across the board and the best part is his dam. She is Kaley's cow and a daughter of the 2386Z donor. A maternal sister was the lead off red female in our 2018 Herdbuilder sale for \$30,000 and donor cow now for KT Ranches impressive breeding program. We retained her full brother last year for Duty here at MRL. The 5305C female can get it done herself with an \$11,000 Regulator son last year to Berndt Ranch, ND, and another son, MRL Stroman, working here at MRL. Don't miss this fella, he's got a ton of potential.

A true sale feature here! This tycoon sire group is loaded with a few big time herdbulls and we feel this guy has as much potential as any. Powerful in his makeup with frame, length and as complete as any in the pen with that herdbull head and look that sets the great ones apart. On paper he is also impressive. 95lb bw and 905 actual ww start of September that rank him above average ce and top 10% ww, yw and TI. Pedigree wise, wow. His dam has done it before raising the 2nd bull in the ring in our 2018 sale MRL Elmo going to Bata Simmentals, ND and has an elite F female working here at MRL. She is sired by MRL Driller who just happens to be a full brother to the 2423Z donor cow and the dam of MRL Missile. The dam of 4465B is a full sister to the \$48,000 MRL Integrity bull that excelled for our and Ashworth's breeding program. A combination of the breeding prowess of Tycoon and our famous 493U and 570U donors on the bottom. A big time herdbull here for sure!

Herdbull time! Not sure where to start but here we go. Check out these numbers. A 100 EPD ww and 156 yw EPD ranking #1 in the breed and just a modest 85 lb actual bw. From a pedigree perspective sired by the \$75,000 SVS Tycoon with 15 powerful sons in this year's offering and on the bottom side an all black pedigree outcross to the red genetics. His dam is the \$22,000 lead off female in our 2018 herdbuilder sale and is none other than the maternal sister to the \$69,000 MRL Playmaker bull going to Bouchard Livestock in last year's bull sale. Another brother sells this year as the feature Lot 25. Big time herdbull for 2021. Phenotypically this fella is hard to fault. Super dark red, stout made and complete in his design with moderate bone and nice skull structure. Homo polled and covers all of the bases. Co-owned with Downhill Simmentals, Curle Farms and Bouchard Livestock.

This is a flat out rip and for sure one of the top bulls in this powerful red pen. It is no accident as you look through this sire group of Tycoon sons for 2021 and his dam is an incredible 91Y daughter we flushed last spring. This powerhouse is not her first herdbull and won't be her last. In 2018 she raised the \$20,000 MRL Torque bull going to Marin Land & Livestock and Oberle Bros., and again last year one of the most popular bulls in the sale the \$24,000 MRL Rattler bull going to Leewood Ranch. As his brothers before this dark red, powerhouse will be a herdbull! Numbers that rank him top of the breed for performance and maternal and a big time donor cow as his dam.

An average pic here of a dandy. He was a calf that was a favourite last spring as a baby along side his beautiful dam as we toured people through the cows prior to last years bull sale. His dam is a beauty, moderate tanky cow we purchased as a lead off female from Westway Farms. A maternal sister to this bull was a feature bred female this fall going to Steeves Land & Cattle. This fella is blood red, stout and boosts impressive birth to weaning numbers ranking top 15% bw, top 25% ww, yw and top 10% API and TI. An all around sire here.

This Tycoon sire group is gonna turn some heads. This fella is typical of this group. Long, big topped, stout and hairy. This guy ranks top 3% of the breed for ww & yw. Started at 100lb actual bw and 930 lb actual ww start of September. And now the best part is his dam a beautiful ET daughter once again out of the stellar 470U donor cow who is also a maternal sister to our famous 863S donor who is the dam to our dominant 477U donor. Big time, highly proven cow family here and a herdbull in the making that deserves serious attention!

Well here's the full brother to the most admired black bull in last years sale MRL Untouchable who topped the black division at \$47,500 to one of the most progressive breeding programs in the industry, Wilson Stock Farms. Watch for his sons next year as we used this bull extensively in our program as well. For 2021 this guy comes in the shade of red and resembles his brother in many ways. Stout made, yet smooth and attractive in his design, length, frame, blood red and that herdbull head and presence as his brothers before him. His sire Capone has positioned himself as one of the most consistent sires in the breed with over 600 registered progeny in the CSA. The dam 55W donor matron is our all time high revenue cow here at MRL and prior to last years sons had averaged \$30,000 on 6 herdbulls sold. The only bred heifer ever offered fetches \$37,000 to K-T Simmentals and the pick of our herd heifer we sold at Agribition resulted in a daughter of 55W for \$24,000. A couple 55W daughters will take over where she left off in the donor pen this spring. An opportunity to add genetics from our 55W and 836W donor cows in one cross and 2 of the most influential cows not only here at MRL, but in the breed. Homo Polled.

A curve bender Load M Up son here that started at just 84 lbs and weaning of 855 lbs start of September. Not bad for a February calf. The dam is a granddaughter of our productive 443N donor. This is the cow family that produced MRL Hurricane, MRL El Tigre, MRL Hammer, MRL Red Force just to name a few. 2 maternal sisters to this fella sired by Missile were feature bred heifers in our December sale in 2019 to Haman Simmentals, ND, and this past year to TSN Simmentals for \$8000. Here's a good one that will add pounds, frame and maternal. Homo polled.

A definite headliner in this powerful group of red bulls for 2021 and one we will use here at MRL. You will remember his maternal brother last year. Our lead off and high selling Simmental bull at \$69,000, MRL Playmaker to Bouchard Livestock. A sister was the \$22,000 feature female in our 2018 female sale and is the dam to the awesome Tycoon son Lot 4. For sure this cow family is big time. The grandam, the Remington Wise Gurl cow will be 13 years old this spring and is awesome and resembles the most beautiful 6 year old cow you can imagine. His data boasts a moderate 90 lb bw and ranks top 35% and ww an impressive 920 lbs the start of September and rank top 3% on his EPD profile. Phenotypically he is fault free and just so balanced and complete from every angle, yet masculine and has that herdbull head and pizzaz. This one will leave a lasting impression on your program. Homo polled. MRL retaining 1/3 semen interest.

Probably the most admired red bull in the pasture this summer by some pretty astute cattlemen and would rank as one of, if not, the top red Missile son we have sold to date. Dark red, super stout made and complete from every angle. Phenotypically he is hard to find a fault and just possesses that sharp look and herdbull presence. The dam combines the 2 greatest cow maker bulls we have ever used at MRL; Black Edition and Red Western. If you have followed our program at all, you will already realize the value of this pedigree. The 4316B female has been productive with a bull going to long time volume buyer year after year Corey Jorgenson, ND, one feature daughter to Come As UR and another working here at MRL. All in all a young herdbull here that will leave his mark in the industry.

This guy has been a standout all along. The Missile sons the past 3 years have turned some heads and for good reason. Moderate birth, big weaning and flawless in their makeup and just plain stout! This guy fits the mold and would rank right up there with the best we have sold in the red pen. His dam is a dandy moderate Mountain daughter back to the powerful 570U donor matron. The Lot 1 heifer in our December Herdbuilder sale derived from this very cow family and drew a lot of attention going to Bar CL Livestock for \$13,000. The 4353B can get it done herself. Her bull last year was a rip and one of my favourite bulls. A Precision son that went to Judd Ag Ventures, MB, for \$12,000. This guy has all the credentials to be a big time herdbull!

This group of Rust sons for 2021 are an impressive bunch and this one will lead the charge. True cowboy bulls! 98 lb bw and 870 lb ww at just a couple days more than 7 months of age. His grandam has been a herdbull producer with our lead off bull in 2017 for \$22,500 to Marin Cattle co son in 2018, going to Oliver Bros., 2019 to Tica Holdings and last year to Brigden Ranch. Tie into this sire group if you want to add pounds to your next calf crop.

An average picture here of a really good red blaze bull. Sired by Venom who's sons lead the charge last year going to some of the top breeding programs in the land. This guy would have fit right in. His dam is a powerful young female with 2 top herdbulls to her credit already going to the strong programs of Herb & Gail Berner and Ryan & Missy Hull. The grandam is also the dam of the Lot 15 bull in this year's offering with a long line of accomplishments to her credit. A real front end herdbull here and baldy to boot!

An outcross calving ease all around sire here that ranks top 15% ce & bw, top 5% ww, top 30% api and top 1% ti with an 85 lb actual bw and over 800 lb adj ww. Out of one of those beautiful Missile first calf heifers. The grandam is the beautiful 3340A matron and a full sister to the pick of our herd female to Workmans & Come As UR. Her dam is of course our 863S donor cow. Without a doubt our most powerful and consistent red cow family here and MRL backs this herdbull up. I could fill 2 pages on the accomplishments of this lineage of cows. Homo polled.

Cowboys if you want one with fresh new genetics, out of an elite donor cow and some chrome, have a look here. Sired by the \$90,000 IPU Bentley sire and out of our beauty 5389C donor cow. A maternal brother was a top pick of Berndt Ranch in 2018 and a sister was a feature \$11,500 bred heifer in our December female sale going to Steeves Land & Cattle and most likely a future donor herself. A black baldy full brother sells as Lot 84.

**GIVE US A CALL; ANY TIME, ANY DAY!**

Making a living solely with our livestock, we realize the herdbull selection is one of the most critical decisions any stockman will make each year ... we are here to help. We would like to extend a warm welcome to visit the ranch sale day and any time prior to view the sale offering, our cow herd and herd bull battery. We truly believe, and past customers will confirm, the strength, uniformity and breeding consistency of the bulls on offer is due to the powerful cowherd and herd bull battery behind them. If you can not make it to the sale or prior to, give us a call; anytime, any day. One of the most important parts of service to our customers is helping select the right bulls to optimize their breeding objectives. We know our cow herd and genetic strengths of every bull in the offering better than any one and would be pleased to assist in any way possible. Our Sight Unseen Program has worked very well for busy cattlemen in sourcing the best bulls for their program within and quite often below their price range. Viewing our cowherd, bull battery and visiting with the people involved at MRL will make your bull buying decision less stressful, more profitable and pleasurable.

Just snapped this picture out in the big pen on one of the pretty good bulls in the sale. His sire MRL Progress was one of 3 full brothers to sell in our 2017 sale that averaged \$26,000 per head on the flush. He is a perfect fit for our program with his low birth calving ease credentials and then explosive growth and powerful maternal merit. This guy fits the bill with this 88 lb bw and adj ww of 846 lbs. His dam is an ET daughter of Capone and the Spring Creek Mimi donor that had a top bull last year going to Sweet Grass Ranch, MB. Cowboys bull here boys.

Here's a diamond in the rough and one with a ton of potential. He is an ET son of the old master MRL Red Force himself with over 900 registered progeny with CSA and the Spring Creek Mimi donor cow. We have sold to top notch feature high selling full brothers. One to 3M Simmentals in BC, the other to Brueckner Eales Simmentals, ND, and have 3 awesome full sisters in our herd. Numbers here that rank top 25% for ce & bw, still top 40% ww, yw and top 4% api and 10% ti. The kind that works for cowboys.

One of the really good bulls in this powerful pen. A true FI Simm/Angus half blood bull here sired by the powerful BBS Load M Up sire with a tremendous sire group in the yearling division of the catalogue. This guys dam is a beauty registered Angus female sired by our high selling Angus bull in our 2014 sale to Lazy Creek Angus and out of maybe our strongest Angus cow family back to the productive 1M & 178K cows. If you're wanting a Simm/Angus sire this is a good one with our top genetics from both breeds.

Here's a 3/4 Angus 1/4 Simmental calving ease bull that we really like. He is moderate with lots of shape and substance and sired by the U2 Retrospect bull that sired the \$130,000 MRLA Respect in last years sale and has a dandy group of calving ease bulls in the Angus division again for 2021. This guy would work great in a pen of Simmental influence heifers.

# BLACK SIMMENTAL YEARLING BULLS

For sure the most diverse, intriguing and powerful set of black bulls we have ever offered filled with outcross genetics for our repeat customers and breed leading genetics and numbers. We start the catalogue with an absolute tank of a Rust 18C bull followed by an always impressive group by the \$100,000 MRL Missile whose sons and daughters are so consistent with shear quality year after year. Elite embryo calves by Missile, Riddler and liner 56U out of maybe the most powerful herdbull producing dam in the beef business, our MRL 836W donor, will catch your attention. 8 sons by the \$90,000 IPU Bentley sire are new to this year's lineup exclusive and outcross genetics to our gene pool. The first sons of the 2 high selling State of War sons Certified and Bender will debut this year and they will make a statement with a couple sons that could top our event. The large group by the total outcross State of War sire are impressive this year out of some of our very top cow families. They are absolute curve benders, top of the breed numbers, outstanding foot quality and stout! The calving ease sons by the high selling Focus bull and curve bender Proclamation bull are out of our most elite heifers with the most current and intriguing pedigrees in the breed. This set of black bulls for 2021 is impressive with more diversity, predictability and genetic power than ever before. This is a group we are pretty excited about!

The lineup in the age advantage is impressive with sons by State of War, Rust 18C, and two powerhouse home raised bulls, MRL Progress and MRL Viper. Also 4 ET bulls in this exciting group. Same genetics as the yearlings and will cover some ground this spring.

He may be the stoutest bull we have ever offered for sale and he carries it so well; free moving, sound made and still has that presence, look and class of a true herdbull. He was the heavyweight at weaning off grass the start of September at 1000lbs and ranks top 1% of the breed for ww at 103.0 and yw at 158.2 and hasn't let up at all! His young dam is one of a few Riddler daughters making their mark in our herd. She raised a \$10,000 herdbull to Steichen Simmentals her first try and our high selling black bred heifer this past December for \$12,000 to Steeves Land & Cattle. The great grandam is one of my all time favourite cows and dam to the \$16,000 MRL Warrior bull at Spring Creek Simmentals. One of the most impressive individuals we have sold, checks all the boxes and outcross to most black pedigrees. MRL retaining 1/3 semen interest.

A combination of two of the most dominant breeding pieces to carry the MRL tattoo. Sired by the \$100,000 MRL Missile sire who has left his mark in the industry. The dam, none other than our incredible 836W. One of the breeds most dominant herdbull producing power cows. She averaged over \$40,000 on her fist 6 bulls to sell including MRL El Tigre (Labatte & Oberle), MRL Capone (MRL & BLI), Progress (Little Rainbow), Renegade (Boundary Ranch), Sleep Easy (K-T & Canadian Sires), other sons recently sold in 2019 to T-C Walls Ranch, Circle M, David Ives, Brady Cattle Co & Bell Simmentals. Last year a Venom son for \$16,500 to Steichen Simmentals and 2 liner sons, one to Bennett Stock Farms and the other MRL Payweight to Berndt Ranch, ND, for \$16,000 and one we are using here at MRL through AI. Bottom line is this is one of the stoutest, predictable herdbulls we have offered for sale. The kind that can put your program on the map. Homo polled. Hetero Black.

I will save some ink here. A combination of one of the top sires and donor dams not only here at MRL but in breed history and maybe the 2 most consistent breeding pieces in our program. Curve bender numbers and built in predictability. Full brother to the feature Lot 19 bull in the red division. Homo polled. Hetero Black.

2 full ET brothers here with unlimited breeding potential. The sire LFE Riddler is the \$160,000 outcross pedigree bull from Lewis Farms that has worked extremely well here at MRL. Highly marketable performance sons and powerful beautiful uddered females. The dam, our 836W donor, one of the most powerful herdbull producing dams in the breed! Averaging over \$40,000 on her first 6 sons. She is now gone and we are almost out of embryos as 2021 will be one of the last opportunities to acquire a direct son of this breed leading matron. Opportunity time folks. 125H – Hetero Black, Homo Polled. 149H-Homo Black, Homo Polled.

A big powerful performance bull here with impressive numbers. Just 90 lb bw and 950 lb actual ww ranking top 25% ce, top 2% ww & yw and top 5% api and 1% ti on his EPD profile. Sired by the LFE Riddler bull who's daughters will leave their mark in our herd and sons have been highly sought after. The dam is making a name for herself! The feature Black Missile daughter in our December sale was one that was hard to part with but went to a great young stockman, Carter Goudy, as one of the high sellers. Another feature female in 2018 went to McKintosh Livestock and a herdbull to Tony McMechan.

Another Bentley x Missile combination here resulting in a big time herdbull prospect and one I assume will be popular sale day. A definite candidate to lead off this powerful pen of Bentley sons. We admire this fella for his muscle, substance and overall balance. Once again, moderate birth and again a ww EPD ranking top 4% of the breed. These young Missile daughters can produce and transmit that dense body mass and forerib the Missile progeny are noted for. As for the cow family it is certainly worth of being the foundation to a herdbull. The maternal brother to the dam is the MRL Warrior bull going to Spring Creek Simmentals in 2017 for \$16,000 and a maternal sister is the dam to the impressive Lot 68 bull in this offering. The great grandam 799W would rank as one of my all time favourite and most beautiful cows and graced the cover of our 2019 Herdbuilder catalogue.

The first couple of years we used the State of War sire predominantly on heifers with 100% confidence and superb results. For the 2021 group he was used also on some of our most elite cows and the results are explosive! His dam, the 2411Z cow is a predator out of the 570U donor and full sister to the \$48,000 MRL Integrity still working at Ashworth Farm & Ranch. She raised a sale feature bull in our 2019 sale, a leadoff Missile son, going to Speargrass Cattle Co. and if you've been here before you know Murray buys the good ones year after year. Once again, impressive numbers with frame and growth.

A herdbull here we're pretty excited about and plan to use here at MRL in our AI program this spring. His sire is one of the most intriguing herdbulls we have sold to date and leadoff bull in our 2019 bull sale going to Franklin Livestock/Wakope Enterprises. We have been anxiously awaiting to get his outcross genetics working in our program. This will be his lead off son for 2021. Phenotypically he has that same wow factor his sire had. Structurally flawless, big topped, stout made and that presence in the pen that sets the great ones apart. Add to all this, that cool baldy look and EPD #'s that rank him in the top end of the breed in 12 of 14 traits. His young dam is just getting started and grandam is a beautiful uddered, broody fullblood cow that raised herdbulls to top operations including Glen Aldentaler, SD, Wilson Colony, AB, and Bill Simpson, MB. A full sister was a top bred in our December sale that Kaley snuck out of the bunch. Outcross pedigreed, and checks all the boxes in terms of numbers, maternal strength, udder quality and overall phenotype makes for an interesting herdbull and one we will hang our hat on. MRL retaining 1/3 semen interest.

An average picture of one of the feature breeding bulls in this stellar State of War sire group for 2021. It is no accident as this sire group is impressive and on the bottom side is a To The Max daughter out of the 570U donor cow (dam of the \$48,000 MRL Integrity and MRL Blacktop just to name a couple). Her dam was the 431N donor a full sister to the 443N donor which is the cow family that produced MRL Hurricane, MRL Red Force, MRL El Tigre, MRL Capone and so on! The To The Max sire was impressive and a \$30,000 bull himself out of the powerful 477U donor cow. Boy this fella lines up some cow power. This guys #'s are also impressive; a February born at just 88 lbs and just 5 pounds short of 900 at weaning start of September. He ranks top end of the breed across the board with an impressive top 2%, 146 API #. To top it all off, his maternal sister was our Lot 1 and high selling feature heifer in our December sale for \$13,000 to Bar CL Livestock. One here that checks all the boxes. Homo polled, Homo black. Might even work in the heifer pen. MRL retaining 1/3 semen interest.

Yet another awesome numbered low birth herdbull here worth serious consideration. His dam is a powerful beauty of a cow that will join the donor pen this spring. She has proven her worth. Her Riddler son in 2017 was our high selling bull at \$40,000 to Southpaw Cattle Co. and a full brother was a highlight performance bull last year going to many time repeat and volume buyer Korey Jorgenson, ND. A full sister in production here is also big time on production and dam to the impressive Lot 114 bull. This guy will be one impressive herdbull lets see who finds him Homo polled. Homo black.

Our lineup for 2021 features more big time herdbull candidates than it ever has before and this is one we think is near the very top and one we will be using here at MRL. Phenotypically he is ideal in a complete, flawless package. His numbers are breed leading top 10% ce, bw, top 3% ww, top 2% yw and api, top 5% mce, mwwt and 1% ti. On paper, sired by the impressive curve bender, State of War, and the dam- remember the tattoo the MRL 823D matron, who will not only replace but surpass her breed leading dam, our TSN 55W donor cow, in the next few years. Pretty big shoes to fill but she is well on her way. An impressive beast of a cow and has earned her spot as our next big time donor cow starting this spring. Her first bull was the \$24,000 MRL Bender sire (we are using heavily here at MRL) going to Little Rainbow Ranch. Her next was the youngest bull in the sale last year and maybe the buy of the sale going to Boundary Ranch, MRL Eminence. An intriguing prospect here that could be used in the heifer pen, but one you will want to use on the cows and add to your ET program. Homo polled. MRL retaining 1/3 semen interest.

Here's a good dude to start this solid group of black Coming 2s. Ideally framed, smooth made and packed full of muscle with a herdbull presence. Sired by the Rust 18C sire who has top prospects in every division in this years offering. The dam is one of those stout easy keeping Predator daughters that has raised top bulls for Greg Lawrence and Harvey Hanowski. The great grandam is our old 302M Power Drive donor cow that put our black program on the map. Pedigree full of leading sire and donor cows here.

I could fill this entire page on the breeding capabilities here and dams progeny highlights. She is of course the incredible 55W donor and highest revenue earning cow at MRL, she has huge influence again this year in our offering! 2 full sisters to this fella were high sellers in our December female sale going to Bell Simmentals, ND, and Brian Johnson, AB. We are also using a full brother here at MRL. Calving ease, growth and unmatched maternal power in this pedigree. This one could be a sleeper. Homo polled.

A full brother by blood to the Lot 131 bull. State of War x 420B out of the 55W donor. She has had 7 herdbulls average well over \$30,000 including the high selling black bull last year MRL Untouchable (his calves look awesome and will be sale highlights next year.) We now have dozens of daughters in our herd and the only bred heifer ever sold brought \$37,000 to K-T Ranch. This guy would work in the heifer pen and the daughters will be females that will leave an impact on your herd for years.

# ANGUS YEARLING BULLS

Our group of Angus bulls is for sure the most impressive to date. Powerful performance bulls, elite calving ease heifer bulls and elite outcross pedigrees to the breed in many cases totally exclusive to our breeding program or to those who have invested in those exclusive limited genetics. In the red yearling division, to lead the charge, will be the \$90,000 MRLA Red Resource sons that caused quite a stir in the industry with his first set of sons last spring. They just add that extra dimension, incredible foot quality and his first daughters calving are exceptional, powerful and beautiful uddered. If you thought last year's group was impressive, wait until you see the bunch for 2021 and mothered by our most elite cow families. On the calving ease side will be sons by the phenomenal U2 Retrospect bull that sired the incredible \$130,000 MRLA Respect bull last year (you gotta see the calves on the ground, they are impressive to say the least). The Retrospect sons are sleep all night calving ease bulls, oozing with Angus character and shape and loaded with maternal prowess. Our group of black hided bulls is the largest to date with sons by Red Resource and Retrospect as well as SAV Resource and Bar EL Natural Law, two of the most respected bulls in the Angus breed today. In the 2 year old division, black and red bulls sired by the home raised impressive MRLA 83D sire that we retained for our own use. A black red carrier son of SAV Resource and a tremendous Mulberry cow. This group is impressive with curve bender #'s. Small birth and frame and length with explosive growth and led off by the Lot 164 bull that has garnered some attention already. Our Angus cowherd is one we are extremely proud of. Big capacity, good footed, good uddered, built on genetics that produce results under ranch conditions.

This guy gets the nod to start off this powerful sire group. Dark red, stout made with a smooth muscle pattern and bursting with that herdbull charisma and presence. His dam is one of our favourite cows and she has had herdbulls for Scott Anderson, a feature Stimulus son going to GDR Ag, MB, and another to Russel Lunde, ND. Moderate 75 lb bw here and might be the Resource son that would work in the heifer pen. This fella has caught the eye of some top stockman to the pen already here in January.

If you have followed our program at all you will have heard me elate to the quality of our Tilt daughters several times. This guys dam is as good as we have; moderate, big bodied, beautiful uddered and productive. A full brother was a feature bull last year going to Spring Creek Colony and the year prior a dandy to Blake McMillan. Love this guys overall balance, dimension and character. Sired by the \$90,000 Red Resource and can't make em any better on the maternal side. Tilt x 61X.

The Resource sons drew some attention last spring with his first calf crop not only here at MRL with 3 sons over \$10,000 with two to Pieper Red Angus top breeding program in Nebraska and another to long time repeat customer and friend Darren Johnson in North Dakota but also a \$130,000 son at U2 and \$90,000 son at SSS Angus. This powerhouse in 2021 will stand right there with any of them. A moderate 84 lb bw and impressive 820 lb ww start of September. Not bad for a February calf. He's one that grabs your attention every time you're in the pen with that herdbull presence, frame, length, flawless structure and overall explosive muscle pattern and power. His dam is one of our cherished 61 X daughters that are perfect uddered, ideal Angus cows that mother our feature bulls year in and year out. I would give my eye teeth for 20 straws of 61X semen as there was nearly no semen left at the time of his accidental demise. 61X was the high selling bull back in 2011 to Windy Hills Angus. A powerful herdbull here with all the tools.

An absolute feature calving ease herdbull here. His sire, U2 Retrospect, was a high seller and our pick of the U2 bulls in 2019, we were so excited to get him and had big expectations. Well, he has exceeded expectations and more. His first son to sell was the feature \$130,000 MRLA Respect son last year to BLI (wait until you see his sire group next year, the calves look incredible) and his daughters are absolutely flawless in their design and may be his biggest asset. Retrospect's dam, a feature female at the U2 dispersal is now working as a donor at Ken Ray. Well as good as the top side of this pedigree is, the bottom side is equally impressive. His young dam is just getting started but mothered the second high selling Retrospect son last year to Jetat Angus, AB. The grandam 569Y Mission Statement cow has a herdbull at Redpath Farms and a \$9000 bull in 2018 to Paul Murray and a \$9500 Banknote son in 2019 to Ross Knott in Nebraska. She is also the dam to the 3411A cow we will flush this spring. She had a \$10,000 Resource son to Pieper Angus, Nebraska last year, a \$16,000 son to Fine Line in 2016, a \$14500 black bull to Blairs Ag in 2018 and another feature to Jeff Ulrich, ND. Enough said. Cool bull, cool pedigree and solid numbers. One of the top calving ease bulls we've ever offered!

The youngest bull in the sale and maybe as good as they get. We feel this fella has a ton of potential. Once again, sired by the Retrospect bull and out of a beautiful Assassin heifer you will hear a lot more from. The grandam is none other than our 4395B donor. A powerful, dark red New Era daughter that had our lead off Red Resource son last year going to the awesome herd of Darren Johnson's in North Dakota. This pedigree really lines up some cow power with the Anexa, Cora and 4395 donors. A herdbull here folks and one we will use here at MRL. MRL retaining 1/3 semen.

We will see who's paying attention here. This may be the sleeper in the pen. A low birth U2 Retrospect son and his dam is none other than the beautiful 4422B Harvester daughter and dam to the breed leading MRLA Red Resource bull himself. If this guy had come red, he would have been staying right here at MRL. Our finest genetics here and should work in the heifer pen.

If you want muscle, length and pounds with a look that makes the order buyers sit up in their seats, have a look at this fella. He's sired by the awesome old 53W (Westwood) sire we keep going back to the tank on. He has sired some great herdbulls selling to the top programs in the breed including: MRLA Revenue (Semex), MRLA Flex (Leewenburgh Angus), MRLA 59B (here at MRL), and MRLA New Era (Six Mile) that went on to be Denver Stock Show Reserve Champion bull. The old 401X cow always gets it done and is also the grandam to the Lot 155 bull. No guesswork here.

His sire, SAV Resource 1441, is one of the leading bulls in the industry and his dam is the highest revenue earning cow ever closing in on \$10 million revenue sales of direct progeny. The Resource influence is heavy in our breeding program. These daughters are nothing short of awesome! And sons have growth and muscle. This fella is typical; stout, smooth muscle pattern with length and frame and his dam is once again one of our awesome Tilt daughters. This guy will sire some absolutely gorgeous replacement females and ranks top 5% ww and top 1% yw.

The first of 3 outstanding and intriguing herdbull prospects by Bar EL Natural Law. The Natural Law daughters we have seen are phenomenal and he is a bull we wanted to add to both our red and black genetic pool. We think this fella is really cool and is one we will be using here at MRL. His dam is an absolute model cow. She is simply as awesome of a cow as we own and one you need to see in person and will enter our donor program this spring. She is one of those Resource daughters I was referring to earlier and is a maternal sister to our 4395B donor cow, the dam to the feature Lot 149 calving ease bull. This cow family will become pretty relevant in our offering over the next couple of years. MRL retaining 1/3 semen interest.

We've been splitting hairs to try and decide which is the top bull of these 3 Natural Law sons. This guys the curve bender, 88 lb bw and ranks top 25% for ce and over 800 lb ww ranking top 15% both ww & yw. His dam is one of those awesome Tilt daughters that I refer to so often (you would think we have 100 of them as many times as they show up on these top bulls but reality is we only have a handful, they are just that productive.) This cow can get er done with top bulls going to Kevin Larsen, ND, Corey Flaman and last year a Red Resource son to many time repeat customer, Sanguin Ranch.

The heavyweight Angus bull at weaning time and has not let off the gas. His dam is the powerful Warden daughter 641Y who had a top son in 2019 to Spring Creek Colony and is best known as being the dam of the MRLA Reload bull going to Leewenburgh Angus top program. He of course is the sire of the \$90,000 MRLA Resource bull going to Bouchard Livestock and 3MC and the MRLA Upload bull to Terron and Six Mile. The grandam 793R cow shows up every year on top bulls and is designated an elite dam by Canadian Angus. This one's a herdbull and one we will use here at MRL.

 RED MRLA MISS 432X  
 RED PFRA MS LAKOTA 129M

The lead off bull here in the Coming 2's and deservedly so as he has already garnered a fair bit of attention in the pen. This sire group by the outcross MRLA 83D sire is an impressive group but this guy flat out stands out as the stud in the pen and has all along. Phenotypically he is hard to fault: powerfully constructed, athletic, on the move and just has that incredible Angus character and herdbull presence and skull. On paper he is pretty cool with SAV Resource, Mulberry and the Queen cow family back to New Trend on the top, and none other than a 61X daughter back to the Lakota 129M cow family that raised a feature female going to Darren Van Curren at Sunberry Valley Angus and top bulls to Goudy Prairie Acres and Little Rainbow Ranch. If you've followed our program I don't have to elate to the strength of our 61X females and his dam, the 580U cow probably still my favourite cow of all time. He ranks above average for bw & ce and top 5% ww & yw on his EPD profile. All in all one here we're pretty excited about and would rank up there with the most elite herdbulls we have offered for sale. One here we will definitely AI to this spring. MRL retaining 1/3 semen interest.

A typical low birth weight smooth made 83D son here out of a Millennium daughter. MRLA Millennium is a maternal brother to the awesome 61X bull and was a high seller in 2015 to Wraz Red Angus. If you're in need of an outcross red bull to cover a big pen of heifers, have a look here. And for sure keep all the heifers born.

The heavyweight bull at weaning of all the Angus bulls in this group and ranks top 1% for ww and 2% for yw. These 83D sons are ideal- born small but have the frame and length to convert into pounds and we're sure looking forward to getting these daughters into production with the pedigree they possess.

One here that surely deserved his picture in the book but for sure won't get missed in the pen. A performance-oriented bull here in this group that ranks top 1% for both ww & yw. His dam is none other than a Tilt x 61X combination. Wow! A power bull here with frame, substance and as long as a well rope.

This is one we would rank really high. This is getting repetitive with this impressive sire group but top 10% ce and top 1% ww & yw. His dam is a flat out beautiful female we purchased as a lead off female from Lewis Farms. She is on the short list to join the donor pen. She had a powerful Simm/Angus bull last year to RJ Ag for \$8000. Now for the cool part, this guy carries the red gene. Resource on the top and an all black Kodiak x SAV Erica donor type female on the bottom. One here we would AI to next spring. Unreal #'s, pedigree and red carrier to boot.

**MRL 431N**

- Dam of MRL Storm
- Dam of 570U Donor
- Full sister to 443N Donor

# Around The Ranch

# Thank You

We would like to take this opportunity to thank our customers for your continued support of our Bull Sale and program. To every bidder, buyer, friend and neighbor that participate year in and year out spanning over 5 decades in the bull business.

We are truly blessed to have many of the very top commercial cattlemen and women both sides of the 49th source their Herdbulls here at MRL. And we will continue to work 24/7 to supply you with the top genetics in the world. We have made so many great friends in the business over the past 50 years. This year will certainly be different than any other we have ever experienced with uncertain COVID restrictions and what not. Its years like this we rely on our reputation and over 50 years in the business of providing elite breeding bulls to progressive stockmen with an old fashioned honest approach. As you know we are a hands-on outfit, the same person who breed, feed, calve and live with these herdbulls 365 days a year will be on the other end of the phone when you call. Expecially this year (but any year for that matter) lean on us! If you need herdbulls we want to make sure you get the right ones for your program. Give Lee or Dave a call and we will go through sire groups and cow families and give you a complete honest appraisal of the genetic merit behind each individual on offer. Take advantage of our sight unseen program, order buyers, and two internet providers to get your business done! We will be there to help and stand behind our product and guarantee you will have bulls to get your cows bred. If you can come ahead to tour the bulls any day works for us, if it works for you and our phones are on 24/7. Look forward to visiting with our many repeat and new customers in this trying year. The Ag Industry just charges on!

**Sight unseen 100% satisfaction Lee (306) 493-8067 Dave (306) 483-8660**
